THE MOUNT VERNON PEAR.

To W. S. Little, Nurseryman, of Rochester, N. Y., we are indebted for the above illustration of the Mt. Vernon Pear, which was originated some years since by the late Hon. Samuel Walker, of Roxbury, Mass. Its high and well merited reputation for size, quality and productiveness, has given it a prominent place in horticultural estimation. Its time of ripening is at a season when the number of good varieties is scarce, gives it additional value, and secures for it an enviable place among the *standard* fruits. Description: *FRUIT*.—Full medium to large, nearly globular; color, a rich cinnamon russet, with a reddish cheek; flesh, juicy, crisp, melting, with a spicy, vinous flavor, which is peculiar, and quite distinct from that of any other known sort. It comes into bearing early. The original trees bear regular crops of uniformly good fruit. In the report of the "Committee on Native Fruits" of the American Pomological Society at the meeting in Philadelphia, Sept., 1869, the following appears:—MOUNT VERNON.—Origin, Roxbury, Mass., now being disseminated by W. S. Little, of Rochester; a large Russet Pear of excellent quality, ranking as "Best," season, November, December.

THE MARYLAND FARMER.

A TORPID SYSTEM.

Sometimes, without any assignable cause, the physical strength and animal spirits give way, and a strange torpor falls alike on the body and intellect. There is little or no pain perhaps, but the natural vigor and elasticity of the nervous and muscular system seems to have departed, and an indifference to the pleasures of life, and even of its grave responsibilities, takes the place of that earnest interest in both which characterizes every well balanced mind when in a healthy condition.

This state of partial collapse is often the premonitory symptoms of some serious malady. It indicates unmistakably that the vital powers are languishing and need a stimulant. In such cases the effect of a few doses of **HORTON'S STOMACH BITTERS** is wonderfully beneficial.—The great tonic wakes up the system from its drowse. The secretions and the circulation receive a new impetus. The relaxed nerves recover their elasticity under the operations of the specific, like the slackened strength of a musical instrument in the process of tuning. Lethargy and debility are replaced by energy and vigor, the spirits rise, and life that almost seemed a burden while the season of depression lasted, becomes once more enjoyable.—That such a radical change should be produced by a remedy entirely devoid of the powerful alkaloids and minerals so extensively used in modern practice, may seem incredible to those who pin their faith on the medicinal efficacy of active poisons, but if these skeptics will take the trouble to enquire of those who have tested the corrective and alterative virtues of the Bitters under the circumstances described, they will find the statement to be true.

DR. MACKENZIE'S LIFE OF CHARLES DICKENS is having an immense sale. It has been published but two months, and the Publishers announce the tenth edition. It is only sold by Subscription, and a Canvasser is wanted in every Township and we could advise all in search of work and money to send for a Canvasser's Outfit, (costing \$1,) and commence at once canvassing their vicinity thoroughly for subscribers for Mackenzie's Life of Charles Dickens, price only \$2 a copy, it being the cheapest and best selling Subscription Book ever published. Employment given to all who will apply. Large commissions are paid, and steady and profitable work can be secured in any locality. With this Popular Work, territory may be canvassed a third or fourth time with as good success as at first, it being racy, chatty, yet reliable, written by his life-long friend, who is universally acknowledged to be peculiarly qualified for the task, he having been engaged for several years, in collecting material for this interesting work. Address T. B. Peterson & Brothers, Philadelphia, Pa., who will send a Photograph of Charles Dickens to every Canvasser.

PERUVIAN GUANO EXCELLED

—BY—

Whann's Raw Bone Super-Phosphate

Pound for pound, dollar for dollar, Whann's Phosphate beats Peruvian Guano on first crop, and besides permanently improves the soil for after crops. Guano is only a stimulator. Whann's Phosphate permanently enriches the soil for future crops. Try it, farmer, if you buy only ONE BAG. E. G. EDWARDS, Manf's Agent,
1t 57 S. Calvert st., Baltimore, Md.

SOUTHERN FARM AND HOME FOR OCTOBER.—We acknowledge receipt of this valuable periodical for October, which closes the first volume. It is gratifying to know that the *Farm and Home* has taken a front position among the Agricultural publications of the day. Gen. Wm. M. Brown has shown himself to be a skillful Editor, and the publishers, Messrs. J. W. Burke & Co., leave no stone unturned to make it all that could be desired. We commend the *Farm and Home* to our readers as a first class magazine worthy of their support. Now is the time to subscribe. Terms \$2.00 per annum. Address Publishers, Macon, Ga.

HOWELL'S POINT FRUIT FARM AND NURSERIES.—We call attention to the advertisement of Mr. N. Barnard, Still Pond, Kent Co., Md., who offers for sale a large stock of Peach, Pear and Apple Trees, and Small Fruits. He is an experienced and reliable nurseryman.

RECEIVED.

From John Saul, Washington, D C., his wholesale Catalogue of Fruit, Evergreen and Ornamental Trees, Shrubs, Stocks, Roses, Greenhouse Plants, &c., for autumn of 1870 and spring of 1871.

From F. K. Phoenix, Bloomington. McLean County, Illinois, Descriptive Catalogue of Hyacinths, Tulips, Crocus and Lilies Also Wholesale Price List for Fall of 1870.

New Advertisements.

UNIVERSAL COMMENDATION—Webster's Unabridged Dictionary receives the universal commendation of the press, the clergy and literary men of the day. It is an indispensable article in the family, school and office. The following is from the Nashville *Dispatch*:

"This is beyond doubt the best and most complete dictionary of the English language ever published. The labor and research bestowed by the editors in its revision are apparent on every page. On the whole, as a dictionary and repository of useful information it stands without rival."—*North Georgia Citizen.*

More than 500,000 people bear testimony to the wonderful curative effects of Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It cures Bronchitis, and the worst lingering coughs. As an Anti-Bilious medicine for "Liver Complaint" it has no equal. It permanent cures constipation of the bowels, cleanses and purifies the blood and thereby cures scrofulous and Syphalitic taints and all diseases of the skin, as Pimples, Blotches, Boils, Rashes and Eruption. Sold by druggists.

Dr. Sage's Catarrh Remedy is backed by \$500 reward.

DON'T BUY

Peruvian Guano when you can get "WHANN'S PHOSPHATE, which is far better. Try it once.—You can buy one bag to commence with.

E. G. EDWARDS, Manf's Agent,
57 S. Calvert st., Baltimore, Md.

MAKE THE PIGS FAT.

Pigs are scarce and pork is likely to command a good price. A well-fatted pig brings at least two cents per pound more than one with bare kidneys and thin sides. Eight bushels of corn, with ordinary pigs, that have nearly attained their growth, should give us at least 100 pounds of growth. At 10 cents per pound, live weight, the present price for fat pigs in Chicago, this would give us one dollar a bushel for the corn. But this is not all. If we sell a pig not half fat, weighing say 250 pounds, we should get only 8 cents per pound, or \$20.—Keep this pig two months, and feed it eight bushels of corn and it should then weigh 350 pounds and bring, without any advance in prices, 10 cents per pound, or \$35. In this way we get \$15 for 8 bushels of corn, or \$1 87½ per bushel.

During October, fattening pigs should be pushed forward as rapidly as possible. It is poor economy to feed them on nubbins, or soft, immature corn.—Better give such corn to the cattle or to milch cows. But if it *must* be fed to the fattening pigs let them at any rate have one or two meals a day of sound corn. And take pains to induce them to eat as much as they can digest. The chief points in fattening pigs are: Comfortable quarters, a constant supply of water in a separate trough, regular feeding and undisturbed sleep. As to how long it will be profitable to continue the fattening, we know of no better test than the amount of food consumed. A two hundred pound pig that is doing well will eat at least a bushel of corn a week—and if he eats more and digests it you may be pretty sure he is growing rapidly and is paying well for his feed; but as he gets “filled up” he will eat less, and so long as this is due to his being more quiet and contented, and to sleeping more, it is little or no disadvantage, but when it arises from loss of appetite, or impaired digestion, there is little profit in keeping him longer. A three hundred and fifty or four hundred pound pig, that cannot be induced to eat more than three quarts of cornmeal a day, must be gaining very little and had much better be killed and put into the pork barrel.—*Am. Agriculturist.*

THE BEST GRASS FOR BUTTER.—The *Valley Farmer* says that if you aim at a great flow of milk, feed clover; if you wish rich milk, and well-flavored butter, feed young timothy and white clover; if you aim at the best results, both in quantity and quality of butter, feed on fresh pastures of white clover and timothy in summer, and early-cut timothy and wheat bran in winter. The grass must be cut when heading out; or better, young aftermath well cured. Avoid roots and garden stuff in general, if you wish a good quality of butter—though it is now held that those fed while milking or immediately before, will remedy the evil.

WILL LIME PREVENT THE RAVAGES OF THE PEACH-GRUB?—A correspondent in the *North Western Farmer* says:—“Early last spring, in making some repairs, I had a considerable amount of old plaster. I carried two coal-hods of it to each of several young peach trees, heaping it up close around them. Not one of all these trees have been affected by the peach-grub.

“Who else has had experience on this subject? Will lime prevent the ravages of this insect? If so, one of the worst enemies of the peach tree is easily disposed of. The waste lime about old lime kilns could be utilized, if this be the fact.”

A CURE FOR ANTS.—A correspondent of the *Hearth and Home* writes: “Please tell your distressed housekeeper, as a cure and prevention for red ants and all other kinds, a bit of brimstone lying on the floor or shelves where anything is kept which will draw them, I have found from experience to be effectual in driving them off and keeping them off. So for years when the spring cleaning is done, I put my pieces of brimstone in closets and pantries, and have not seen an ant of any kind.”

PERUVIAN GUANO.—The total export of Peruvian guano for the year 1869, as shown by custom-house returns at Callao, was 512,757 tons, valued at \$25,000,000. Of this quantity, Belgium took 82,428 tons; England, 196,840 tons; North America, 25,321 tons.

Successful farming is made by attention to little things. The farmer who does best, earns his money with best results. Such men are the salt of the earth.

COMPENDIUM OF KNOWLEDGE.—What a compendium of human knowledge is this indispensable work—Webster's Unabridged Dictionary, Illustrated. For comprehensiveness, completeness and accuracy of definitions, it stands unrivaled, and is, in all respects, the greatest literary work ever produced in America, worthy of a place by the side of the Bible in every household in the land. The medal granted this superb work at the Great Exhibition last year was richly merited, both through the value of the work itself and the patriotic energy of Messrs. Merriam, who sent there a superbly bound copy of the dictionary, which is considered throughout the continent, as it is in America, the only correct authority of the English language.—*Field and Farm.*

⚠ If you have a discharge from the nose, offensive or otherwise, partial loss of the sense of smell, taste or hearing, eyes watering or weak, feel dull and stupid or debilitated, pain or pressure in the head, take cold easily, you may rest assured that you have the Catarrh. Thousands annually, without manifesting half of the above symptoms, terminate in consumption and end in the grave. No disease is so common, more deceptive or less understood by physicians. R. V. Pierce, M. D., of Buffalo, N. Y., is the proprietor of Dr. Sage's Catarrh Remedy—a perfect Specific for Catarrh, “cold in the head,” or catarrhal headache, which he sends to any address, post paid, for sixty cents, or four packages for \$2. Sold by druggists.

THE AMOUNT OF MONEY which can be saved in every family by buying silver or copper tipped shoes for children, will surprise any one who has not tried it. All parents may lessen their shoe bills two-thirds, and at the same time avoid the disagreeable sight of ragged stockings and protruding toes, always seen when shoes are not protected by metal tips.—*N. York Post.*

BALTIMORE MARKETS---Oct. 5.

Prepared for the "MARYLAND FARMER" by GILLMORE,
SWIFT & Co., Produce Commission Merchants,
No. 102 Light street wharf.

[Unless when otherwise specified the prices are wholesale.]

ASHES.—Market steady at \$6.50@7 for Pot.
BEESWAX.—No material change to note since last quotations—32 to 35 cts. lb.

BROOM CORN.—Dull market and a further decline in prices. Common Red 4 to 5 cts.; Western 5 to 6 cts. per lb.

BUTTER.—Very little choice in the market and selling readily at 35 to 38 cts. per lb. The stock of medium and lower grades is heavy, and prices range from 22 to 28 cts. Cooking Butter goes off at 14 to 17 cts. Dairymen should take great pains to work out all the butter-milk, use the best fine salt, and pack in ash, chestnut or oak tubs only, which should be well soaked in clear, fresh water, and immediately after in strong brine, before putting in the butter. Roll should be well clothed in nice white muslin, having previously the starch thoroughly washed out of it, without using soap, and while the cloths are wet, soak them in a clear, strong brine before rolling up the butter. Never send to market in pine packages, as it impregnates the butter with the turpentine flavor, which greatly depreciates its value, often 25 to 50 per cent.

COFFEE.—Market active and prices firm. Ordinary Rio 15 cts.; fair 16 cts.; good 17 cts.; prime 18 cts.; fancy 18½ cts. Ample stock.

COTTON.—The war in Europe and the decline in gold continues to depress our market. The French to prevent their stock from falling into the hands of the Germans are shipping from Havre to Liverpool, which has had the effect to cause a decline in that market. We quote Ordinary 13 cts.; Good Ordinary 15 cts.; Low Middling 16 cts.; Middling 17 cts.

DRIED FRUIT AND BERRIES.—Receipts very heavy and market dull, except for choice stock. Blackberries 9 to 10 cts. per lb.; Whortleberries 10 to 11 cts.; Raspberries 30 to 25 cts.; Cherries, pitted, 16 to 22 cts., unpitted 3 to 4 cts.; Apples 3 to 8 cts.; Pears 8 to 10 cts.; Peaches, peeled, bright 12 to 15 cts.; dark 7 to 10 cts.; unpeeled, halves, 6 to 8 cts.; quarters 4 to 5 cts.

EGGS.—The warm weather and free receipts continue to keep the market depressed. So soon as it sets in cold prices will advance. Shippers should send in "Stevens' Patent Carriers" in lieu of Barrels—their cost is very light. We quote fresh country in Stevens' Carriers 26 cts.; do. in boxes 25 cts.; do. in barrels 24 cts.

FEATHERS.—Prime White, new, Live Geese, per lb. 70 to 75 cts.; do. Dark do. 50 to 60 cts.; Common and Mixed 30 to 45 cts.

FRUITS.—Apples—heavy receipts and warm weather has caused prices to rule very low, say \$1 to \$2.50 per bbl. Pears—light receipts and good demand; Cooking 75 cts. to \$1 per bus.; Bartlett \$3.50; Dutchess \$3; other dwarfs \$1.50 to \$2.50. Grapes—receipts are lighter and market improving. Concord and Isabella 5 to 6 cts. per lb.; Catawba 10 cts., and Delaware 12 cts. Catawba is the favorite and most profitable variety.

FLOUR.—Market active; holders firm.		
City Mills Family.....	\$9.50 @	
" Extra.....	7.00 @	7.25
" Super.....	5.00 @	5.50
Howard Street Family.....	6.75 @	8.25
" Extra.....	6.00 @	6.25
" Super.....	5.00 @	5.50
Western Family.....	6.50 @	7.25
" Extra.....	6.25 @	5.50
" Super.....	5.50 @	5.75

GRAIN.—Receipts about supply the wants of millers. Shippers still keep out of the market—though we anticipate shortly a good export trade. The destruction of Grain in France has been and continues to be very great.

Wheat.—White, choice new, \$1.55@1.70 per bush.; do., good to prime, \$1.30@1.50; red, choice Maryland, \$1.60@1.67; do., good to prime, \$1.40@1.55; do., common to fair, \$1.10@1.25; Pennsylvania red, \$1.40@1.50; Western do., \$1.30@1.40.

Corn.—White, 90 cts. @ \$1.05; yellow, 93@95c. per bush. Oats.—45@50 cts. per bush.

Rye.—70@80 cts. do.

MILL FEED.—Market steady. Brownstuffs, 15@17 cts.; medium Middlings, 30 cts.; heavy do., 50 cts. per bush.

MOLASSES.—Market dull. Cuba clayed 33 cts.; Muscovado 35 cts.; Porto Rico 40@60 cts.

FERTILIZERS.—No change to note.	We quote:	
Peruvian Guano.....	\$90@95	¥ ton of 2000 lbs.
Orchilla and Rodonda.....	30	¥ ton "
Turner's Excelsior.....	65	¥ ton "
Turner's Ammo. S. Phos.....	55	¥ ton "
E. F. Coe's Ammo. S. Phos.....	55	¥ ton "
Ober's Phospho-Peruvian Guano	65	¥ ton "
Ober's Super-Phosphate of Lime..	55	¥ ton "
Soluble Pacific Guano.....	60	¥ ton "
Patapasco Guano.....	60	¥ ton "
Flour of Bone.....	60	¥ ton "
Andrew Coe's Super-phosphate..	60	¥ ton "
Baugh's Raw Bone S. Phos.....	52	¥ ton "
Magnum Bonum Soluble Phos.....	56	¥ ton "
Ruth's "Challenge" Sol. Phos..	60	¥ ton "
Zell's Raw Bone Phosphate.....	56	¥ ton "
Rhodes' do.....	50	¥ ton "
Mapes' do.....	60	¥ ton "
Bone Dust.....	45	¥ ton "
Horner's Bone Dust.....	45	¥ ton "
Dissolved Bones.....	60	¥ ton "
Baynes' Fertilizer.....	40	¥ ton "
"A A" Mexican Guano.....	30	¥ ton "
"A" do. do.....	30	¥ ton "
Moro Phillips' Super-Phosphate..	56	¥ ton "
Whann's Raw Bone Super Phos..	56	¥ ton "
Md. Fertilizing & Manufacturing Co's Ammoniated Super-Phos- phate.....	.55	¥ ton
Fine Ground Bone Phosphates.....	.30	¥ ton
Plaster.....	\$2.25	¥ bbl.

PROVISIONS.—Market slightly depressed. Hams 22 to 24 cts. per lb. for Sugar Cured; Shoulders 14½ cts.; Rib Sides 17 cts.; Clear do. 17½ cts.

POULTRY.—Light receipts with active market. Chickens \$3.50 to \$5.50 per dozen; Old Fowl \$5.50 to \$6; Ducks \$4 to \$4.50.

SALT.—Stock light, fair demand. Alum \$1.65@1.75; Fine \$2.45@2.60 per sack. Turks Island 45@50 cts. per bushel.

SUGAR.—Firm and steady market. Cuba 10½ to 11 cts.; Porto Rico 10½ to 11½ cts.; Demerara 11 to 13 cts.

VEGETABLES.—Potatoes—receipts are on the increase, but prices are well maintained. Early Rose \$3.50 per bbl.; Peach Blows \$3; Goodrich \$2.50. Sweet Potatoes \$1 to \$1.75 per bbl. Tomatoes 75 cts. to \$1 per bus. Onions scarce at \$4 to \$4.50 per bbl.

WOOL.—Without change. Burry unwashed 22@25 cts.; common 26@28 cts.; long staple 30@33 cts.; washed 42@48 cts. per lb.

FIVE CENTS ADDITIONAL

will buy shoes with silver or copper tips, which will save the buyer the price of a new pair of shoes.— Compared with ragged toes and dirty stockings, they are beautiful, to say the least. Parents, try it. oct-3t.

ROGUES AND ROGUERIES OF NEW YORK

—A complete exposure of all the tricks and traps, snares and pitfalls of New York and other cities, and all swindles and lumbugs by mail or otherwise. New revised and enlarged illustrated edition; a most intensely interesting book, and will save its readers from all risk of imposition by sharpers, advertising cheats, quacks, or other frauds. Only 25 cts. of any bookseller or by mail.

JESSE HANEY & CO., 119 Nassau st., New York.

RARE CHANCE!—HANEY'S JOURNAL, a handsome 16 page illustrated family paper, combining entertainment and profit, will be sent on trial to any new subscriber three months for the nominal sum of TEN CENTS. Exposure of Humbugs in every number. Single copies of newdealers only. JESSE HANEY & CO., 119 Nassau st., New York.

PAINTERS Manual, a complete and practical guide, giving best method and latest improvements in house painting, sign painting, graining, varnishing, polishing, staining, gliding, glazing, silvering, Grecian oil-painting, Chinese painting, Oriental painting, &c. Also principles of glass staining, harmony and contrast of colors, with philosophy, theories and practices of color, &c. Includes also practical paper hanging, 50 cts.

Watchmaker and Jeweler's Manual, 25c.; Soapmaker's Manual, 25c.; Horeshoer's Manual, 25c. All practical books for practical men. Sold by all booksellers or sent by mail, post paid, on receipt of price by JESSE HANEY & CO., 119 Nassau-st., N. Y.

The Poultry House.

MANAGEMENT OF POULTRY.

Warren Leland, Highland Farm, Rye, N. Y., writes in answer to an inquiry to the American Institute Farmer's Club of New York, as follows:

"If the old gentleman will come up and see me I will gladly show him how I manage my poultry-yards. I have found that for every hundred fowls you must give up at least an acre. But rough land is as good as any. Hens naturally love the bush, and I lop young trees, but leave a shred by which they live a year or more. These form hiding places and retreats for them. In such places they prefer to lay. I have great success, and it depends on three or four rules, by observing which, I believe a good living can be made by hens and turkeys. 1. I give my fowls great range. Eighteen acres belong to them exclusively. Then the broods have the range of another big lot, and the turkeys to go half a mile or more from the house. The eighteen acres of poultry-yard is rough land, of little use for tillage. It has a pond in it, and many rocks, and bushes, and weeds, and sandy places, and ash heaps, and lime, and bones, and grass, and a place which I plow up to give them worms. 2. When a hen has set, I take her box, throw out the straw and earth, let it be out in the sun and rain a few day, and give it a good coat of whitewash on both sides. In winter, when it is very cold, I have an old stove in their house, and keep the warmth above freezing. There is also an open fireplace where I build a fire in cool wet days. They dry themselves, and when the fire goes out there is a bed of ashes for them to wallow in. Summer and winter my hens have all the lime, ashes and sand they want. 3. Another reason why I have such luck is because my poultry-yards receive all the scraps from the Metropolitan Hotel. Egg making is no easy work, and hens will not do much of it without high feed. They need just what a man who works, requires—wheat bread and meat. Even when wheat costs two dollars, I believe in feeding it to hens. As to breeds, I prefer the Brahmas, light and dark. I change roosters every spring, and a man on the farm has no other duty than to take care of my poultry. I frequently turn off 3,000 spring chickens in a single season.

CURE FOR ROUP IN CHICKENS—A gentleman who had several valuable fowls afflicted with roup asked a well-known chicken fancier of this city for a remedy. He was informed that the most effectual cure was to cut off the heads of the fowls as soon as the disease made its appearance. Unwilling to lose

valuable fowls without making an effort to save them, he commenced to treat them after a method of his own. He placed his diseased fowls in a perfectly dry room, bathed their heads with kerosine oil and rubbed their bills inside with a mixture of alum and grease. He fed them only on Indian meal and boiled potatoes well peppered with cayenne, no hard food whatever being allowed them. With this treatment they commenced to improve, and in from a week to ten days had entirely recovered. The disease has seldom failed to succumb to this treatment. On an average only about one chicken in six died.—*Germanatown Telegraph.*

Keeping Eggs for Winter Use.

At this season, says the Massachusetts *Ploughman*, when eggs are generally plenty, provision should be made for keeping a supply over for winter's use. Many plans have been recommended, some of which have been successful, others not.

The plan which we have found to be most effectual, is to cover the entire shell with tallow, which being melted penetrates the pores thoroughly and then hardens suddenly. Lard, oil and butter answer the purpose for a short time, but they do not remain permanently on the shell, and as soon as they have dried off, evaporation of the egg commences.

A correspondent of the *Rural New Yorker*, writes: "Grease them, wrap each one in paper and pack, always putting the little end down. One of my neighbors puts them up in this way in the summer, when eggs are cheap, selling them in the winter, and realizing a nice profit.

An accomplished housewife tells us her way, which she says is "superior to all others." Here it is: "One pint of salt; one-half pint of unslaked lime; three quarts of water; boil together. Pack the eggs, small end down, in jars. When the water is cold pour over the eggs with or without the dregs. She says eggs put down in this way will keep perfectly fresh for a long time, and farmers putting down their eggs so in summer, and selling them in winter, can realize a handsome profit."

WHICH ARE THE MOST VALUABLE BREEDS OF POULTRY?—One of our experienced poultry breeders, says the *Practical Farmer*, after trying most of the new breeds, classifies them thus as regards value for the million: In situations where eggs for use or market are more the object than anything else, he recommends the French Houdan, the Dominique and White Leghorn breeds. For a fowl for general purposes, and combining large size, good laying properties, quiet habits, easy fattening and tender flesh, he prefers Partridge Cochins, Dark Brahmas, Light Brahmas, Buff Cochins. These are all hardy, and every way desirable.

IMPORTANT TO MERCHANTS, FARMERS, AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers, and Planters, in ordering their supplies of our Dr. McLANE'S CELEBRATED VERMIFUGE, has been to simply write or order Vermifuge. The consequence is, that, instead of the genuine Dr. McLANE'S VERMIFUGE, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLANE'S CELEBRATED VERMIFUGE, prepared by Fleming Brothers, Pittsburg, Pa.

We would also advise the same precaution in ordering Dr. McLANE'S CELEBRATED LIVER

PILLS. The great popularity of these Pills as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and Southwest, has induced the vendors of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! Dr. McLANE'S CELEBRATED LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge nor Liver Pills unless you are sure you are getting the genuine Dr. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburg, Pa.

DR. McLANE'S AMERICAN WORM SPECIFIC, OR VERMIFUGE.

No diseases to which the human body is liable are better entitled to the attention of the philanthropist than those consequent on the irritation produced by WORMS in the Stomach and Bowels. When the sufferer is an adult the cause is frequently overlooked, and consequently the proper remedy is not applied. But when the patient is an infant, if the disease is not entirely neglected, it is still too frequently ascribed, in whole or in part, to some other cause. It ought here to be particularly remarked that although but few worms may exist in a child, and howsoever quiescent they may have been previously, no sooner is the constitution invaded by any of the numerous train of diseases to which infancy is exposed than it is fearfully augmented by their irritation. Hence it too frequently happens that a disease, otherwise easily managed by proper remedies, when aggravated by that cause, bids defiance to treatment, judicious in other respects, but which entirely fails in consequence of the presence of worms being overlooked. And even in cases of great violence, if a potent and prompt remedy be possessed, so that they could be expelled without loss of time, which is so precious in such cases, the disease might be attacked, by proper remedies, even-handed and with success.

Symptoms of the Presence of Worms which Cannot be Mistaken.

The countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilated; an azure semi-circle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva, slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult and accompanied by hicough; cough sometimes dry and convulsive; uneasy and disturbed sleep,

with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist, Dr. McLANE'S CELEBRATED VERMIFUGE may be depended upon to effect a cure.

The universal success which has attended the administration of Dr. McLANE'S VERMIFUGE has been such as to warrant us in pledging ourselves to RETURN THE MONEY in every instance where it proves ineffectual, "providing the symptoms attending the sickness of the child or adult warrant the supposition of worms being the cause." In all cases the medicine to be given in strict accordance with the directions.

We pledge ourselves to the public that Dr. McLANE'S VERMIFUGE does not contain MERCURY in any form; and that it is an innocent preparation, and not capable of doing the slightest injury to the most tender infant.

Directions.

Give a child, from two to ten years old, a teaspoonfull in as much sweetened water every morning, fasting; if it purges through the day, well; but if not, repeat it again in the evening. Over ten, give a little more; under two, give less. To a full-grown person give two teaspoonfulls.

Beware of Counterfeits, and all Articles Purporting to be Dr. McLANE'S.

The great popularity of Dr. McLANE'S GENUINE PREPARATIONS has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles; in consequence of which the proprietors have been forced to adopt every possible guard against fraud. Purchasers will please pay attention to the following marks of genuineness: 1st. The External Wrapper is a fine Steel Engraving, with the signature of C. McLANE and FLEMING BROS. 2d. The Directions are printed on Fine Paper, with a Water-Mark, as follows: "Dr. C. McLANE'S CELEBRATED VERMIFUGE AND LIVER PILLS, FLEMING BROS., PROPRIETORS." This Water-Mark can be seen by holding up the paper to the light.

The Liver Pills have the name stamped on the lid of the box, in red wax.

PREPARED ONLY BY
FLEMING BROS., PITTSBURG, Pa.

SOLE PROPRIETORS OF Dr. C. McLANE'S LIVER PILLS AND VERMIFUGE.

SOLD BY DEALERS EVERYWHERE.

The Proprietors will forward per Mail, to any part of the United States, one box Liver Pills, or one vial Vermifuge, on receipt of 40 cents in Government stamps.

BALTIMORE MARKETS---Sept. 1.

Prepared for the "MARYLAND FARMER" by GILLMORE,
SWIFT & Co., Produce Commission Merchants,
No. 102 Light street wharf.

[Unless when otherwise specified the prices are wholesale.]

ASHES.—Pot \$6@25; demand fair.
BEESWAX—33@35 cts.; demand weak.
BROOM CORN.—Red 7@9 cts.; green 10@11 cts. As the new crop comes in prices tend downwards.

BUTTER.—Choice 32@34 cts., and scarce. Market stocked with low grades. Dairymen should take great pains to work out all the butter-milk, use the best fine salt, and pack in ash, chestnut or oak tubs only, which should be well soaked in clear, fresh water, and immediately after in strong brine, before putting in the butter. Roll should be well clothed in nice white muslin, having previously the starch thoroughly washed out of it without using soap, and while the cloths are wet, soak them in a clear, strong brine before rolling up the Butter. Never send to market in pine packages, as it impregnates the Butter with the turpentine flavor, which greatly depreciates its value, often 25 to 50 per cent.

COFFEE.—Market only moderately active for Brazil, prime stock selling freely at full figures; common and inferior are neglected. Ordinary Rio 15 cts.; fair 16 cts.; good 17 cts.; prime 18 cts.; fancy 18½ cts. Ample stock.
COTTON.—Market very quiet. Low Middling to day sold at 18 cts.

DRIED FRUITS AND BERRIES.—New crop arriving; not much demand yet for Fruits, but Blackberries are sought after. Peaches, peeled, bright, 12@15 cts. per lb.; do. do., dark to fair, 7@10 cts.; do. unpeeled, quarters, 5 cts.; do. do., halves, 4½@6 cts. Apples 5@6 cts. Cherries, pitted, 14@20 cts.; do. unpitted, 3@3½ cts. Pears 5@6 cts. Blackberries 8½@9½ cts. Whortleberries 8@9 cts. Raspberries 12@13 cts.

EGGS.—Active market, with light receipts and prices advancing. Fresh Country 25 cts. per dozen; barrelled 22@23 cts. Stevens' Patent Egg Carrier is the very best package to send to market in. The Eggs require no counting and there is no breakage—holds just 39 dozen, and is a light and convenient package.

FEATHERS.—Common and mixed 30@45 cts.; new live geese, good to prime, dark, 50@60 cts.; white 70@75 cts.

FRUITS.—Peaches—The receipts last week and thus far this have been very heavy, ranging from 5,000 to 15,000 bushels per day. Packers have taken freely all good preserving fruit, but shippers have been shy, as the margin would not pay. A great deal of poor fruit is sent to this market, which should be kept at home and fed to the hogs, as the low price it sells for tends to break the market. All trees bearing such should be cut down. Choice Fruit is always in demand, and if not too soft, and properly packed, sells at remunerating figures. Early and Late Crawfords, Magnum Bonum, Honest John Heath, free and cling, are the favorite varieties and sell for the highest prices.

Pears.—Market well supplied; cooking range from 50 cts. to \$1 per bushel; eating \$1@2.50 per bushel. Bartlett's and Duchess are the favorites.

Apples.—Free arrivals; prices range from 50 to 75 cts. per bushel, and \$3@3.50 for extra New York.

Damsons.—Are advancing in price and selling at \$3.50 per bushel.

Watermelons.—Market glutted; prices range from \$1.50 to \$18 per hundred.

Cantaloupes.—Are in good supply at \$2@6 per hundred.

FLOUR.—Market active; holders firm.

City Mills Family.....	\$9.00 @	\$9.50

GRAIN.—There is a little more doing in Wheat. We look soon for a heavy export demand. The terrible destruction of grain in France by the French, to keep it from falling into the hands of the Prussians, and the latter to feed their armies, also to exhaust the supply from the French, besides the vast quantities of new grain stored in Paris, which will soon be heating and ruined altogether, will before long cause a heavy demand for export. Wheat,

white, choice, new, \$1.60@1.65; do. do., good to prime, \$1.30@1.50; do. red, choice Maryland, \$1.50@1.55; do. do., good to prime Maryland, \$1.30@1.40; do. do., common to fair Maryland, \$1.10@1.25; do., Pennsylvania red, \$1.30@1.50; do., Western red, \$1.30@1.50 Corn, white, \$1@1.08; do., yellow, 95 cts @ \$1. Oats 52@56 cts.; do, new, 46@48 cts. Rye 75@90 cts.

FERTILIZERS.—No change to note.	We quote:
Peruvian Guano.....	\$90@95 ½ ton of 2000 lbs.
Orchilla and Rodonda.....	30 ½ ton "
Turner's Excelsior.....	65 ½ ton "
Turner's Ammo. S. Phos.....	55 ½ ton "

Md. Fertilizing & Manufacturing Co's Ammoniated Super-Phos- phate.....	55 ½ ton "
Fine Ground Bone Phosphates.....	30 ½ ton "
Plaster.....	\$3.25 ½ bbl.

MILL FEED.—38@33 cts. for common to medium Middlings, and 40@50 cts. for heavy.

MOLASSES.—Market quiet; Cuba clayed 33@38 cts.; Muscovado 35@42 cts.; Porto Rico 40@60 cts., and English Island same price.

PROVISIONS.—Bacon in good demand. Shoulders 15½ cts.; rib Sides 17½ cts.; clear 18½ cts. Hams 26@26½ cts. for sugar-cured.

POULTRY.—In good supply; large Chickens sell readily, while small ones are dull sale, and old fowls neglected. We beg farmers to improve their breed, the Bramah Pootra is the best cross, and this variety sells at outside figures, as soon as landed on the wharf, while common stock are often hard to work off below quotations. Fowls, old, \$5@6 per dozen. Chickens, spring, small, \$2@3; do. do., large, \$4@5.50. Ducks \$3@3.50. Guineaes \$2.25@2.50.

SALT.—In good supply, with fair demand. Ground Alum \$1.65@1.75; Fine \$2.45@2.60 per sack. Turks Island 45@50 cts. per bushel.

SEED.—Market dull. Timothy \$1.50@4.75; Clover \$9 @9.50 per bushel.

SUGAR.—Prices steady. Porto Rico 9¼@11½ cts.; Demerara 11@12½ cts.

VEGETABLES.—Irish Potatoes are in good supply, and choice varieties meet with ready sale. Early Rose continues the favorite, and sells readily at \$3.50@3.75 per barrel. Goodrich is considered poor stock, and sells readily at \$2.50@2.75 per barrel.

Sweet Potatoes.—Are in good supply; white sell at \$3@4 per barrel, the latter price for unwashed, of good size and in shipping order.

Tomatoes.—Anne Arundels sell readily to packers at 80 cts. per bushel, while common varieties are hard to work off at 40@50 cts.

Onions.—Are scarce, and rate at \$3.50@4.50 per bushel, the latter price for medium-sized Yellow Danvers, which is the best keeping and most saleable variety. Potato Onions are hard to sell below quotations.

WOOL.—In fair demand. Burry unwashed 22@25 cts.; common 26@28 cts.; long staple 30@33 cts.; washed 42@48 cts. ½ lb.

WHISKEY—94@98 cts.

STOVE HOUSE.—We call attention to the advertisement of Charles Fisher, Gay Street, Baltimore, who offers a large assortment of Parlor, Cooking and other Stoves of the most approved patterns and on the most reasonable terms. Our country friends will address or give him a call.

Jersey Bulls and Devon Cattle for Sale.—We draw attention to the advertisement of J. Howard McHenry, Esq., offering for sale this stock. Purchasers can rely upon their purity.

Guano! Guano! Guano!

—:O:—
REDUCTION IN PRICE!
—:O:—

The subscribers offer with entire confidence for the

WHEAT SEEDING

Their popular, valuable and well established

 **GENUINE** 

Phospho-Peruvian Guano.

A Compound of choice Peruvian Guano and Bone Phosphate of Lime with Potash, Soda, &c., beautifully prepared for the Drill or Broadcast.

6 to 8 per cent. Ammonia, 40 to 50 per cent. Bone Phosphate.

As unsurpassed in the production of crop, and equal to BONE DUST in the permanent improvement, and quick as Peruvian Guano in action, bringing up poor lands to a high state of fertility by the increased growth of grasses and vegetation. Such is the unquestionable testimony of the best planters of Maryland and Virginia. Used for many years with great success, and increasing in favor daily, it is unnecessary for us to say more than refer to all consumers, with an earnest request that WHEAT GROWERS will make a trial.

—:O:—
We also especially recommend our

SOLUBLE

Ammoniated Super-Phosphate of Lime

—:O:—
A Very valuable manure, composed of Bone Phosphate dissolved with a large body of Sulphuric Acid—Ammoniated with Peruvian and Fish Guanoes, Potash, &c.

 **WARRANTED VERY SUPERIOR.** 

This Super-Phosphate we believe cannot be excelled. Our patrons give it unqualified approval.— On heavy soils it is more especially adapted than the Guano. On Wheat it has been entirely satisfactory. Beautifully prepared. We beg the patronage of the Wheat growers of Maryland and Virginia and other States. Our manures are reduced in price since the 1st inst., as follows:

Genuine Phospho-Peruvian Guano, \$65 per Ton of 2,000 Lbs.

Ammoniated Super-Phosphate of Lime, \$55 " "

 **IN STRONG BAGS.** 

 **CASH** in Baltimore or equivalent.

G. OBER & SONS,

FRUIT TREES AND PLANTS AT A BARGAIN.

We have over Two Hundred Acres densely planted out to SMALL FRUITS alone, and as we are growing an immense stock of Plants, can sell such low, and guarantee every kind true to name.

Send for our "Wholesale List," also "Terms to Agents." If you want a bill of Trees and Plants this fall, write us what you want and how much of each, and we will return the list to you with prices that will prove satisfactory.

Parties at the South and in California should order from the North in the fall, as our springs open too late for shipment there.

If you want to know how to plant, how to market, or how to grow fine fruit in abundance for your own table, send 25 cts. for our new edition of SMALL FRUIT INSTRUCTOR, 64 pages. Address

A. M. PURDY,
Palmyra, N. Y.
or PURDY & HAUER,
South Bend, Ind.

A. M. PURDY wishes to send a copy of his FRUIT RECORDER AND COTTAGE GARDENER free to all who will send him their address, or 12 numbers, from January to December, for only 50 cts.

PROMPT. HONORABLE. RELIABLE.

AGENTS WANTED in every city, town and village for the largest and most successful DOLLAR HOUSE in the country—ONLY ONE endorsed by the leading Papers and Express Co.'s of the United States. Our goods give universal satisfaction, our premiums to Agents CANNOT BE EXCELLED, and our checks are free. Having two houses—Boston and Chicago—our facilities are UNEQUALLED, and our business exceeds in amount all other concerns in this trade combined.

SEND FOR CIRCULARS and FREE CLUB to S. C. THOMPSON & CO.,

IMPORTANT TO FARMERS.

E. WHITMAN & SONS,

145 W. Pratt St., Baltimore, Md.

SOLE MANUFACTURERS OF

THE ANDREW COE SUPER-PHOSPHATE OF LIME.

THE BEST FERTILIZER KNOWN!

We beg leave to call the attention of the Farmers and Planters of the South to the fact that *we are now manufacturing the Andrew Coe Phosphate, which we can confidently recommend as being equal in valuable properties to any fertilizer known.*

We were induced to enter into its manufacture from a *thorough knowledge of its superiority*, and at the same time felt that, having been prominently before the farmers and planters of the Southern States for nearly thirty years, and having built up a large trade with them, they would have confidence in our not putting our name upon any but a first-class article, and that its standard would be fully kept up.

Many farmers feel very timid about paying out their money for any manufactured fertilizer, having at some time been the dupe of some unscrupulous manufacturer who has made a good article for the first year or two, and then, after having built up a good trade, sent out an adulterated article, at an enormous profit to himself, but of no value whatever to the farmer.

That the Andrew Coe Phosphate is a valuable fertilizer, is a fact easily proved to any one who will read a few of the certificates, of which we have hundreds, from some of the most intelligent and successful farmers of this and adjacent States, and we pledge ourselves that its standard will be maintained, and that no adulterative material whatever shall enter into its composition.

Recognizing the importance of lending our name to none except a first class Fertilizer, and realizing the damaging effect it would have upon our other business were we to supply our customers with an inferior article, we assure them that no effort will be spared to make our Fertilizer equal to any commercial manure in the country.

Its Effects on the First Crop are equal to that of the Best Peruvian Guano.

It is a Permanent Improver of the Soil.

The Standard is Always Uniform.

It is in the End the Cheapest Fertilizer in the Market, as its Standard is Higher than most any other Commercial Manures.

 Send for a Circular.

E. WHITMAN & SONS,

145 PRATT ST., opposite Maltby House, Baltimore, Md.

Hogs.....	1 00
Hay and Straw in addition to the above.	

RULES AND REGULATIONS.

1. The Show Grounds will be open for the reception of Animals and Articles designed for exhibition, on SATURDAY, 24th, after 9 o'clock, A. M., and on Monday, 26th September, after the same hour. But all Animals and Articles intended for exhibition must be entered and ticketed at the Business Office, before being carried within the Society's enclosure.
2. No Animals or Articles (unless by special permission of the Committee of Arrangements previously obtained) will be entered or admitted after 9 A. M. on Tuesday, 27th September, except Bread, Cakes, Butter and Cheese and Slaughtered Mutton, which, if previously entered, may be introduced as late as noon on Tuesday, 27th September.
3. All members of the Society, and all who shall become members previous to or at the Fair, will be furnished with a ticket upon the payment of \$3, admitting the holder and two ladies at all times during the exhibition.
4. All Male Exhibitors must have previously become members of the Society, by the payment of the membership fee of \$3. But Ladies shall be exempt from this charge, and may exhibit articles of their own handiwork free from any charge therefor, or for their own admittance during the Exhibition.
5. These Regulations must be strictly adhered to otherwise the Society will not be responsible for the omission of any animal or article on the Lists.
6. No animals or articles entered for exhibition can be taken away before the close of the Fair, except by permission of the Committee of Arrangements, and no premium will be paid on animals or articles removed in violation of this rule.
7. Animals and articles entered for Exhibition will have cards attached with the number as entered at the business office, and exhibitors should in all cases obtain their cards previous to placing their stock or articles on the Show Grounds.
8. The Judges on animals will have regard to the symmetry, early maturity, size and general qualities characteristic of the breed which they judge.—They will make due allowance for age, feeding and other circumstances on the character and condition of the animals. They will not give encouragement or overted animals. They will not award premiums or Bulls, Cows or Heifers which shall appear to have been fattened for the butcher: the object being to have superior animals of this description for breeding.
9. No person directly or indirectly interested will be allowed to serve as Judge—and the Executive committee will quash the awards in every case where a person interested has served as a Judge, or as attempted to influence or sway the action of the judges.
10. The Judges will be expected in all cases, in making their reports, to give the reason of their decision, embracing the valuable and desirable qualities of the animals or articles to which premiums are awarded.
11. When anything is exhibited to the Judges which they shall deem meritorious, but beyond their power to award a premium, they will furnish a note of the same to the Committee on Class 7, for their consideration and action.
12. No animal or article can take more than one premium, except as hereinafter specified.
13. Horses which take any of the regular premiums of the Society, may likewise compete in the trials of speed.
14. Cattle which simply take regular premiums of the Society, may likewise compete as members of Herds, for Herd Premiums.
15. A premium must not be awarded when the animal or article is not worthy, though there is no competition.
16. All animals or articles competing for the same premium must be brought together as the Judges may appoint; and the Judges may require, in their discretion, exhibitors to change the position and bring in proximity animals and articles concerning the comparative merits of which they may feel in doubt.
17. Any one, who may not previously have joined the Society, paying \$3 to the Treasurer or his authorized representatives at the office on the ground, or at the Society's Room, will be admitted to membership, and be entitled to all the privileges thereof for the year 1870. The Treasurer and his deputies will furnish Certificates of Membership to all who shall pay their subscriptions in full or their entrance fee as above stated—but no credit will be allowed for subscription or entrance, and no person will be permitted to vote or enjoy the other privileges of a member, unless his Certificate give evidence that he has duly joined the Society and is not in arrears.
18. Imported animals can compete only for the premiums offered for such, except in Herds and Sweepstakes.
19. All persons visiting the exhibition must obey the directions of the Officers of the Society, upon pain of expulsion and forfeiture of all the privileges for which they may have previously paid.
20. Every citizen of Maryland, who consents to act as Judge, is expected previously to become a member of the Society.
21. The President shall appoint annually the following committees, consisting
 - 1st. COMMITTEE OF ARRANGEMENTS, PRIVILEGES AND GROUNDS.—*Duties.*—To determine all applications for Booths, Stands, Exhibitions, &c., and to assist at Business Office and Gates.
 - 2d. COMMITTEE ON TRACK.—*Duties.*—To take charge of Track each day at 2½ o'clock, and have the same in proper condition for the Trials of Speed, and to fully enforce the rules of the Association.
 - 3d. COMMITTEE ON EXHIBITION HALL.—*Duties.*—To appoint the Superintendent and Assistants in this department, and to have a general supervision over the same.
 - 4th. COMMITTEE ON GRAND STAND.—*Duties.*—To determine rights of admission, preserve order and exclude improper persons.
- The decision of the above Committees to be final in all cases.
22. The duties of the Marshal shall be to locate upon the grounds in their proper places all animals, implements and all articles exhibited, except in household department, under the direction of the President and the Committee of Arrangements.
- At 2.30 P. M. each day the Marshal shall report to the Committee on Track, and perform such duties as may be required by said Committee.

GRAIN.—Prospects for the Wheat crop in this State,
from the best information at present, do not favor more
than one-half of an average crop. This apprehension
serves to maintain the market under light receipts,—dem-
and mostly from millers with some sales to shippers.
Corn has been in moderate receipt, but with less active
demand from the South prices have fallen off 5@6 cts. on
white and closed 2@3 cts. off on yellow. Oats have been
in liberal supply, demand has been principally for light
Md. & Va., for which prices are supported, whilst for heavy
market has ruled dull and closed to-day lower. We give
the following quotations:

GRAIN.—Wheat—Good White \$1.60; new Md., \$1.77;

prime do., red, \$1.65@1.70; Penn., red, prime, \$1.52;
Western choice \$1.50; do., good \$1.41@1.43. New Va.,
white, \$2.25. Corn \$1.18@1.20; yellow \$1.10. Oats—61
@65 cts. weight. Rye—1.15.

Saws, Seed Sowers and Planters, all of the best in Mar-
ket. Catalogue with price, full information, and Judge's
Report of Auburn Trial sent free. Address

MINARD HARDER,
Cobleskill, Schoharie Co., N. Y.

IMPORTANT TO MERCHANTS, FARMERS, AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers, and Planters, in ordering their supplies of our Dr. McLANE'S CELEBRATED VERMIFUGE, has been to simply write or order Vermifuge. The consequence is, that, instead of the genuine Dr. McLANE'S VERMIFUGE, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLANE'S CELEBRATED VERMIFUGE, prepared by Fleming Brothers, Pittsburg, Pa.

We would also advise the same precaution in ordering Dr. McLANE'S CELEBRATED LIVER

PILLS. The great popularity of these Pills as a specific or cure for Liver Complaint, and all the billious derangements so prevalent in the South and Southwest, has induced the vendors of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! Dr. McLANE'S CELEBRATED LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge nor Liver Pills unless you are sure you are getting the genuine Dr. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburg, Pa.

DR. McLANE'S AMERICAN WORM SPECIFIC, OR VERMIFUGE.

No diseases to which the human body is liable are better entitled to the attention of the philanthropist than those consequent on the irritation produced by WORMS in the Stomach and Bowels. When the sufferer is an adult the cause is frequently overlooked, and consequently the proper remedy is not applied. But when the patient is an infant, if the disease is not entirely neglected, it is still too frequently ascribed, in whole or in part, to some other cause. It ought here to be particularly remarked that although but few worms may exist in a child, and howsoever quiescent they may have been previously, no sooner is the constitution invaded by any of the numerous train of diseases to which infancy is exposed than it is fearfully augmented by their irritation. Hence it too frequently happens that a disease, otherwise easily managed by proper remedies, when aggravated by that cause, bids defiance to treatment, judicious in other respects, but which entirely fails in consequence of the presence of worms being overlooked. And even in cases of great violence, if a potent and prompt remedy be possessed, so that they could be expelled without loss of time, which is so precious in such cases, the disease might be attacked, by proper remedies, even-handed and with success.

Symptoms of the Presence of Worms which Cannot be Mistaken.

The countenance is pale and leaden colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilated; an azure semi-circle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva, slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep,

with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist, Dr. McLANE'S CELEBRATED VERMIFUGE may be depended upon to effect a cure.

The universal success which has attended the administration of Dr. McLANE'S VERMIFUGE has been such as to warrant us in pledging ourselves to RETURN THE MONY in every instance where it proves ineffectual, "providing the symptoms attending the sickness of the child or adult warrant the supposition of worms being the cause." In all cases the medicine to be given in strict accordance with the directions.

We pledge ourselves to the public that Dr. McLANE'S VERMIFUGE does not contain MERCURY in any form; and that it is an innocent preparation, and not capable of doing the slightest injury to the most tender infant.

Directions.

Give a child, from two to ten years old, a teaspoonfull in as much sweetened water every morning, fasting; if it purges through the day, well; but if not, repeat it again in the evening. Over ten, give a little more; under two, give less. To a full-grown person give two teaspoonfulls.

Beware of Counterfeits, and all Articles Purporting to be Dr. McLane's.

The great popularity of Dr. McLANE'S GENUINE PREPARATIONS has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles; in consequence of which the proprietors have been forced to adopt every possible guard against fraud. Purchasers will please pay attention to the following marks of genuineness: 1st. The External Wrapper is a fine Steel Engraving, with the signature of C. McLANE and FLEMING BROS. 2d. The Directions are printed on Fine Paper, with a Water-Mark, as follows: "Dr. C. McLANE'S CELEBRATED VERMIFUGE AND LIVER PILLS, FLEMING BROS., PROPRIETORS." This Water-Mark can be seen by holding up the paper to the light.

The Liver Pills have the name stamped on the lid of the box, in red wax.

PREPARED ONLY BY
FLEMING BROS., PITTSBURG, Pa.

SOLE PROPRIETORS OF Dr. C. McLANE'S LIVER PILLS AND VERMIFUGE.

SOLD BY DEALERS EVERYWHERE.

The Proprietors will forward per Mail, to any part of the United States, one box Liver Pills, or one vial Vermifuge, on receipt of 40 cents in Government stamps.

Shipped by "ALBERTE," leaving Liverpool 4th June, 1870.

A LIST OF SEVEN JERSEY COWS AND HEIFERS, AND ONE PRIZE JERSEY BULL, EXPORTED BY EDWARD PHILIP PARSONS FOWLER, OF JERSEY ISLAND, ENGLAND,

Which he consigns to

Messrs. Ricards, Leftwich & Co., of No. 83 Exchange Place, Baltimore, Maryland, America, United States, for Sale.

HARRISBURG

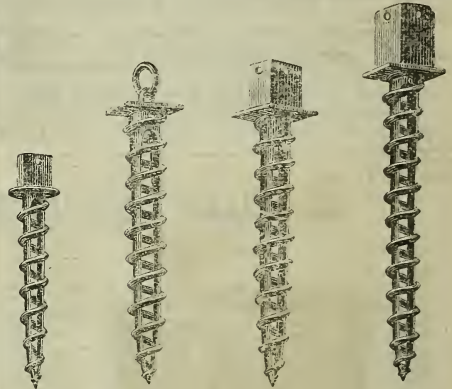

PATENT SCREW POST MANUFACTURING COMPANY.

Chartered by a Special Act of the Legislature.

Patents issued February 16th, and August 24th, 1869.

W. O. HICKOK, Prest.

EUGENE SNYDER, Treas.

This new invention, the patent metallic Screw Post Butt saves all digging in putting down posts for every purpose, and at same time it makes the only cheap and durable post butt in use. It may be made of cast or malleable iron, being a hollow gimlet-pointed screw with socket for the body of the post, is screwed directly into the ground by using a wrench, is suitable for all kinds of fences, grape arbors, vineyards, awning and hitching posts, trellises, seats for yards and gardens, &c., and wherever introduced takes the place of the old style wooden post. The body of the post, fitted into the socket may be either wood or wrought iron or the entire post may be cast iron. It has been thoroughly tested and is now in use in this city for various purposes, giving entire satisfaction for strength, durability and convenience.

Reliable parties wanted in all parts of the country to manufacture on royalty. Send for Circular to No. 411 Market street, Harrisburg, Pa.

July-4t

JAMES R. PIPER, Sec'y

AVOID LEAD POISON.

TIN-LINED LEAD PIPE is the only water-pipe in the market which combines safety to health with strength, durability, facility of bending, and making perfectly tight joints. Water flows through it as pure as if drawn through Silver. It is approved all the leading chemists and physicians in the country; also the Water Commissioners of New-York, Brooklyn, and Boston. In addition to the plumbing of houses, it is largely used in conveying water from springs and wells also for Beer Pumps and Mineral Waters. Circulars and sample of pipe sent by mail, free. Address THE COLWELLS, SNOW & WILLARD Mfg Co., 213 Centre-st., Between Canal and Grand sts., New York.

MARK THE FACTS CONCERNING

18,000
Cook's Evaporators.

Victor Cane Mills.
11,000

So many are in use all warranted and none returned.

THE FIRST PREMIUM

Has been given to

COOK'S EVAPORATOR

at 65 STATE FAIRS,

To the Victor Cane Mill, (since 1863,) at

42 STATE FAIRS,

TO BOTH at the Louisiana State Fair of 1868, for working Southern Cane. All rivals fail to equal these machines on trial.

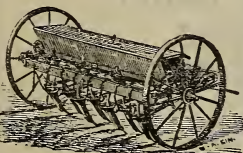

Farmers can't afford to risk crops of Cane on Mills that break or choke, or Evaporators that do second class work and only half enough at that.

While scores of new-fangled inventions have come up, had their day, and subsided, the "Cook" goes right along, constantly increasing in reputation."—*Prairie Farmer*.

TOBACCO PLANTERS BE ON THE LOOK OUT!

Bibb's Patent Tobacco Firing Apparatus Selling at Cost !!

It is almost useless to speak of the merits of this great invention, as it has already filled the pockets of so many of our planters by its use. Only a word to the few who may not have become acquainted with it—it not only SAVES your WHOLE CROP but DOUBLES ITS VALUE.

We are aware of the odium, for a time, cast on Tobacco Furnaces generally, on account of inferior articles thrown on the market by parties jealous of our success, and who attempted to get up an imitation, which proved a dead failure, and for a time created a feeling against this mode of curing Tobacco. Having a lot on hand already to ship, we will sell them for \$130 for SMALL, and \$150 for LARGE SIZE.  Send in your orders early.

BIBB & CO.

We offer at a Reduced Price
'THE FARMERS' FAVORITE'

GRAIN DRILL.

Awarded 40 First Premiums, besides Diplomas, Special Recommends, Silver Medals, &c., at Fall Fairs of 1869.

BICKFORD & HUFFMAN, Patentees and Proprietors.

The Only Perfect Grain Drill in the World.

Certain in Distribution, accurate in Measurement of Seed used, and possessing more facilities and conveniences for adjustment to quantity and practical operations in the field than any or all other Drills manufactured.

THE ONLY GRAIN DRILL

Having a double set of Distributors, which, without adding any weight, gives the farmer TWO DRILLS IN ONE. One seeding Wheat, Rye, or Buckwheat in large or small quantities. The other seeding Oats, Barley, Corn, Peas, and other coarse grain with equal accuracy without clogging, skipping or breakage of seed.

THE ONLY DRILL which throws out of gear by the automatic action of the Tube Lifter and covers all the seed distributed. Has the only really

Practical, Durable Spring Tube in the Market.

Metal or Rubber Grain Funnels, as desired. Double Reversible Steel Points, on Tubes. Broad Faced Wheels, Wrought Iron Axles.

 Warranted to give entire satisfaction. It has the best Fertilizing Attachment in use.

Acknowledging, in the decline of prices of farm produce and the closeness of Financial matters among our patrons, the justice of their claim for a corresponding reduction in the price of farm implements, we have determined to reduce the price of Grain Drills to the old standard of 1860.

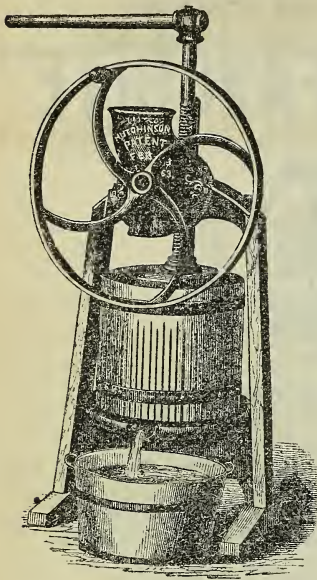

Confident a discriminating public will appreciate our effort, and avail themselves of this "golden opportunity" to secure one of these most useful labor saving implements at old prices, while labor still ranges at the war standard, we have established the following prices for drills, delivered on board boat or cars at Baltimore:

8 Tube Plain Grain Drill	\$35 00
With Guano Attachment	115 00
9 Tube Plain Grain Drill.....	90 00
With Guano Attachment.....	120 00
Gum Spring Tubes to either style of Drill.....	10 00
Grass Seeder to either style of Drill.....	10 00

HUTCHINSON'S
FAMILY
CIDER AND WINE MILL
And PRESS.

500 FOR SALE.

Having the exclusive agency for the sale of these popular Mills in Baltimore, we invite our customers to order early to secure a supply. We have been selling these Mills for several years, and can recommend them as being perfect, and giving entire satisfaction. PRICE \$24.

Hickok or Keystone Patent Portable Cider and Wine Mill.

More than one hundred Silver Medals and Diplomas have been given this Mill within the last four years.

This Mill has been the pioneer in that line, and is the best in the market on the following points:

1st. It will grind the easiest, fastest, and in the most perfect manner.

2d. The press is the simplest and most powerful and quickest handled. It is not hampered up with a number of screws and cog-wheels, which create enough friction to destroy its utility. It is well made, and sold at a fair price.

The Mill occupies about two and a half feet by three feet, and is four feet high, weighing 400 pounds, and is every way portable and convenient.

PRICE \$45.

Liberal Discount to the Trade.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machines:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic

stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength and because, although it can be taken out, it don't rip, not, even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from parts of the world, stating all the same facts.

Pennsylvania Agricultural Works, YORK, PENNSYLVANIA.

A. B. FARQUHAR, Manager and Proprietor.

The Pennsylvania Agricultural Works is one of the most extensive establishments of its kind in the United States. It is furnished with improved Machinery, Foundry, Forging Rooms, Planing and Sawing Mills, Lumber Yard, &c., complete within itself. We are situated among the great Iron, Coal and Lumber fields, which form the basis of all manufacturing; and I would respectfully call the attention of the public to these advantages, confident of meriting an extended patronage.

The following are among my specialities:

PLOWS.

Polished, Hardened Steel and Cast Iron. Farquhar's Cast Steel Model Plow, one and two horse, warranted in any soil, and under all circumstances, *second to none*.—American Clipper, Full Steel, one, two and three horse. Atwood and Ohio Cast Plows, two and three horse. Subsoil Plows, Steel soled, two and three horse. Hillside or Swivel Plows, &c., &c.

Shovel Plows, Cultivators, Sulkie Plows
Made of the best White Oak, or Refined Iron Beams, with hardened Steel Shovels, Plain or Reversible.

KEYSTONE CORN PLANTER, with PHOSPHATE ATTACHMENT, works perfectly with any size Corn and any pulverized Fertilizer.

Roslyn, Long Island.

Book and Job Printing of every description executed at this office.

AETNA MOWER AND REAPER.

From those interested in the use of Harvesting Machines we would again ask a careful examination of our claims of superiority for the original and reliable AETNA MOWER AND REAPER.

3- This HARVESTER although recognized in the past three years as the standard of perfection in design, efficiency and workmanship, is still presented for the Harvest of 1870 with a greater number of points of excellence. For a description of which, price, terms, &c., send for a circular.

Among a number of certificates, we append only one:

CARLISLE, Pa., August 1, 1869.

A. RANK, Esq., Salem, Ohio.

Dear Sir:—I purchased one of your AETNA'S on condition that it would cut wet and lodged grass with a slow motion of the team. After a thorough trial in a field of the worst wet, lodged and tangled grass I ever saw, I cheerfully recommend it as the simplest, lightest draft and keenest cutting machine I have ever seen. As a Reaper it has out few equals; as a Mower and Combined Machine none. Respectfully,

HENRY L. KEENY.

Made at Salem, Ohio. Sold at manufacturer's prices by the Agent,

THE WAGONER DRILL.

STILL AHEAD!

See the Verdict

Of those scientific and practical gentlemen, Rich'd F. Maynard, Esq., and his associate judges; who after the most patient and thorough investigation of the merits of the many drills put in competition at the State Fair, at Baltimore, last Fall, decided in favour of the WAGONER DRILL, and justly awarded it the *First Premium*, which is another evidence, among the many of like character, of the undoubted superiority of this Drill for its general utility, in the seeding of all manner of grain; and as we fully sympathize with the farmer in the reduction of price upon produce, we take the lead in materially reducing the prices upon machinery, which for our drills are as follows:

Single Drill, break pin drag bar.....	\$80.00
" " Spring hoe " "	90.00
Drill with Guano Attachment, break pin drag bar.....	115.00
" " " " Spring hoe " "	125.00

Grass Seed Sower to any one of above \$5 additional.

IMPORTANT TO FARMERS !

SUPER PHOSPHATES.

THE MARYLAND FERTILIZING AND MANUFACTURING CO.

Incorporated January, 1867.

DIRECTORS.

WM. G. HARRISON,
LAWRENCE SANGSTON,
ROBERT TURNER,

CHARLES J. BAKER,
RICHARD J. BAKER,
WILLIAM TREGO.

WILLIAM TREGO,
Manufacturing Chemist.

LAWRENCE SANGSTON,
President.

The wheat crop of 1869 has fully demonstrated the superiority of the SUPER-PHOSPHATES prepared by this Company, in all cases they have proved equal to the most costly articles in the market, Peruvian guano included, and vastly superior to the mass of material palmed off on the agricultural community under the name of "fertilizers."

The Phosphatic base is derived entirely from the Fossil Bone Phosphates of South Carolina, assimilating to, but containing 10 per cent. more Bone phosphate of Lime than the best ground bones, and containing 50 per cent. more of *Soluble Phosphate* than any of the Phosphatic guanos of the West India Islands.

FINE GROUND BONE PHOSPHATES,

Price \$30 Per Ton, in Bags.

Containing, by the average of the Analyses of Professors Piggott, Leibig and Popplein, 60.20 per cent. of Bone Phosphate of Lime.

The unusual per centage of *Soluble Phosphate* will make this form very desirable to Farmers who prefer to use it in its natural state, or to manipulate for themselves.

AMMONIATED SUPER PHOSPHATE,

PRICE \$55 PER TON, IN BAGS.

Adapted to lands that require a full development of the crop, both Straw and Grain.

COTTON AND TOBACCO FOOD.

PRICE \$80 PER TON IN BAGS.

Specialities for the Cotton and Tobacco Plants, rich in Ammonia, Potash and Nitrates, but adapted to all plants that require a prompt and vigorous growth.

Letters and certificates from large numbers of prominent Farmers and Planters can be examined at the office of the Company.

The various preparations of the Maryland Fertilizing and Manufacturing Company are made under the personal supervision of a Manufacturing Chemist of thirty years' experience, and are confidently recommended to the Agricultural community.

LAWRENCE SANGSTON, President,

aug-ly

Office, 58 Exchange Place, Baltimore, Md.

To Farmers and Tobacco Planters !

“EXCELSIOR.”

Containing Ammonia..... 6 per cent.
 Super-Phosphate equivalent to
 Bone Phosphate of Lime.....57 “
 Potash of Soda..... 5 “

Composed of 700 pounds of No. 1 Peruvian Guano, and 1,300 pounds of *Soluble* Phosphate of lime (bones dissolved in acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer and planter—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones—supplying an abundance of Ammonia for any crop, and all soils, and in a perfectly fixed condition—not volatile and passing off with the first crop, as with Peruvian and other ammoniacal guanos, but stimulating the crop to which it is applied, and all succeeding ones, giving to poor, worn out and unproductive soils, new life and vigor, making them, in this respect, equal to the most highly cultivated lands, upon which much time and money have been expended.

We introduced Excelsior in 1858, and challenge the manufacturers and venders of fertilizers, natural or artificial Guano, to show results so invariably successful as can be shown from its use. *One of our firm superintends in person every minutia of its manufacture.* We therefore warrant every bag uniform, and to contain by analysis, the standard of fertilizing properties, giving that protection to the farmer which he does not have in the purchase of any other Guano or Fertilizer sold.

Twelve Years Experience in the Growth of TOBACCO

in Maryland and Virginia has demonstrated beyond doubt that Excelsior has no competitor in the growth of that staple. It is the unanimous opinion of the Tobacco planters of Maryland that from the application of EXCELSIOR the crop is heavier, of finer quality, cures earlier and better, and is not so liable to suffer from drought as from Peruvian Guano. We refer to every Tobacco planter in Maryland.

Uniform Quality Guaranteed.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity

PRICE \$65 PER TON.

ap-1f

per acre, however small; and it is the opinion of the most prominent and calculating Planters, after twelve years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds per acre of Excelsior is equal to from 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

We are daily in receipt, from every quarter, of flattering encomiums from those who used it last spring and summer on cotton, corn and tobacco, and last fall on wheat, and had we the space could publish hundreds of testimonials, many from gentlemen who have continued its use year after year since its introduction.

The best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities. Some unprincipled manufacturers have actually used our trade mark for the purpose of palming off their worthless compounds.

EVERY BAG BRANDED AS FOLLOWS :

Farmers should see that every bag bears in red letters the name of J. J. TURNER & CO. under the inspection mark, and thus secure the genuine article.

RUTH'S "CHALLENGE" SOLUBLE PHOSPHATE.

This Fertilizer is prepared in Baltimore from the very best materials, and designed especially to take the place of A No. 1 Peruvian Guano. It will be found as active as Guano and much more durable in its effects. It is made upon the principle that the measure of our prosperity is the prosperity of the farmer, and every one who uses it may confidently rely upon large crops, unless injured by providential acts. It is, indeed, the "CHALLENGE" Fertilizer of the times, and that it may always remain such we have engaged in its manufacture the very best chemical skill in this country.

Price in Baltimore, \$60 per Ton, of 2000 pounds.

For sale by responsible dealers everywhere.

For further particulars address

R. J. RUTH & CO., Proprietors,
79 SOUTH STREET, BALTIMORE, Md.

HOW TO MAKE \$20 PER DAY.

SEND \$1.50 FOR

O'Hara's Pocket Corn Sheller! AND FULL PARTICULARS.

The Sheller was awarded the first premium at the Mississippi State Fair, 1869, and challenges the world for simplicity, durability, efficiency and cheapness. It separates; does not scatter; shells 50 to 60 bushels per day. The following letters and newspaper notices will convince the most skeptical of the perfect truth of the above statement. We ask for them only a hearing:

LETTERS AND CERTIFICATES:

CAMDEN, Ala., May 30, 1870.

Dear Sir: I received your circular and the Pocket Giant Corn Sheller a few days since. It gives entire satisfaction. I will send you a draft or post-office order, with order for several dozen in a day or two.
C. E. BRAME.

[From the distinguished Prof. J. Madison Gray, who is also a most thoroughly practical man.]

TUPELO, Miss., January 1, 1870.

Dear Sir: You have done more, with less intricacy, to benefit the farmer than any other man of the age. You have invented an article that more than serves the purpose, and commends itself to the financial limits of the poorest man.

J. MADISON GRAY.

SHELBYVILLE, Ky., June 14, 1870.

At a regular meeting of the Farmers' Club, of Shelby co., the Club having had a practical demonstration of the efficient working of O'Hara's Pocket Giant Corn Sheller, on motion, the following resolution was unanimously passed:

Resolved, that the Farmers' Club, of Shelby county, unanimously recommend to the farmers of Shelby, O'Hara's Pocket Giant Corn Sheller, as a useful piece of mechanism, that should be in the hands of every farmer, and its low price renders it available to all.

J. D. BEARD, President.

J. D. GUTHRIE, Secretary.

WEST POINT, Ark., February 6, 1870.

Dear Sir: As I came up the river I showed the Sheller at every landing, and it was universally acknowledged to be the best machine for that purpose that had ever been in the State. I could have sold a great many if I had them. Please send me six dozen to Augusta, Ark.
D. L. FULLBRIGHT.

[The following is from one of the most thoroughly practical farmers and mechanics in the country.]

BOLIVAR, Tenn., June 4, 1870.

Dear Sir: I am glad to inform you that I have been quite successful having sold from 15 to 20 per day, at retail, and could have sold 50 per day, but for the scarcity of money; when that is a little more abundant I expect to do much more. It is a great labor-saver, and justly merits all the praise I hear bestowed upon it. I congratulate you upon your success,
JAS. H. GROVE.

MEREDIAN, Miss., JAN. 24, 1870.

Dear Sir: Your Pocket Giant Corn Sheller is a success. I have sold on an average as high as one hundred and ninety-two Shellers per day. Some days I sell over two hundred. It has gained the approbation of every farmer who has witnessed the operation.
J. MADISON GRAY.

[From the editor of the *Planter*, and a large Agricultural Implement Dealer of Atlanta, Ga.]

ATLANTA, GA., MAY 31, 1870.

Dear Sir: I think your Sheller a perfect machine.
SAMUEL L. ECHOLS.

[From a practical farmer.]

MEDON, TENN., JANUARY 21, 1870.

Dear Sir: I will be down on Monday night. I want more Corn Shellers. In reply to your inquiry, I have shelled average corn at the rate of six bushels per hour, without extra exertion.

W. S. HORNSBY.

[From the Agricultural Machinery King of Mississippi—Captain Bustamente.]

JACKSON, Miss., February 1, 1870.

Dear Sir: I have just closed a trade with your agent for nine hundred and twenty of your Pocket Corn Shellers. I hope you will shell yourself into a handsome fortune, which will be much easier and faster than compounding pills and extracts. Send along the shellers.
G. D. BUSTAMANTE.

[Galveston (Texas) News, May 27, 1870.]

O'Hara's Pocket-Corn Sheller was awarded the first premium (silver medal) for best Corn Sheller at Texas State Fair.

Sample machines sent on receipt of \$1 50.

IMPORTANT TO FARMERS.

E. WHITMAN & SONS,

145 W. Pratt St., Baltimore, Md.

SOLE MANUFACTURERS OF

THE ANDREW COE
SUPER-PHOSPHATE OF LIME.

THE BEST FERTILIZER KNOWN!

We beg leave to call the attention of the Farmers and Planters of the South to the fact that *we are now manufacturing* the Andrew Coe Phosphate, which we can confidently recommend as being equal in valuable properties to *any fertilizer known*.

We were induced to enter into its manufacture from a *thorough knowledge of its superiority*, and at the same time felt that, having been prominently before the farmers and planters of the Southern States for nearly thirty years, and having built up a large trade with them, they would have confidence in our not putting our name upon any but a first-class article, and that its standard would be fully kept up.

Many farmers feel very timid about paying out their money for any manufactured fertilizer, having at some time been the dupe of some unscrupulous manufacturer who has made a good article for the first year or two, and then, after having built up a good trade, sent out an adulterated article, at an enormous profit to himself, but of no value whatever to the farmer.

That the Andrew Coe Phosphate is a valuable fertilizer, is a fact easily proved to any one who will read a few of the certificates, of which we have hundreds, from some of the most intelligent and successful farmers of this and adjacent States, and we pledge ourselves that its standard will be maintained, and that no adulterative material whatever shall enter into its composition.

Recognizing the importance of lending our name to none except a first-class Fertilizer, and realizing the damaging effect it would have upon our other business were we to supply our customers with an inferior article, we assure them that no effort will be spared to make our Fertilizer equal to any commercial manure in the country.

Its Effects on the First Crop are equal to that of the Best Peruvian Guano.

It is a Permanent Improver of the Soil.

The Standard is Always Uniform.

It is in the End the Cheapest Fertilizer in the Market, as its Standard is Higher than most any other Commercial Manures.

 Send for a Circular.

E. WHITMAN & SONS,

145 PRATT ST., opposite Maltby House, Baltimore, Md.

TO WHEAT GROWERS!

"EXCELSIOR."

We again call the attention of the farmers of Maryland and Virginia to our EXCELSIOR, composed of 700 pounds of No. 1 Peruvian Guano, and 1,300 pounds of Soluble Phosphate of Lime (bones dissolved in sulphuric acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of many close calculating Farmers, after TWELVE years experience in testing it side by side with other popular fertilizers that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

The very best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the

PRICE \$65 PER TON.

J. J. TURNER & CO.

J. J. TURNER & CO.'S AMMONIATED BONE SUPERPHOSPHATE

ANALYSIS—Ammonia.....	2.83
Soluble Phosphate of Lime.....	29.51
Bone Phosphate of Lime.....	10.67

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other fertilizer sold, except our "Excelsior," and is made with same care and supervision—uniform quality guaranteed. Fine and dry, in excellent order for drilling. Packed in bags and barrels. **PRICE \$55 PER TON.**

J. J. TURNER & CO.

\$3 Watch! \$3 Watch!

THE GREAT EUROPEAN

Eureka Aluminum Gold Watch Co.

HAVE APPOINTED

J. F. Williams & Co., Jewelers,

No. 561 Broadway, New York,

SOLE AGENTS FOR THE U. S.

And have authorized them to sell their great EUREKA ALUMINUM GOLD WATCHES for Three Dollars, and to warrant each and every one to keep correct time for one year. This Watch we guarantee to be the best and cheapest time-keeper that is now in use in any part of the globe. The works are in double cases, Ladies' and Gent's size, and are beautifully chased. The cases are made of the metal now so widely known in Europe as Aluminum Gold. It has the extract color of Gold, which it always retains; it will stand the test of the strongest acids; no one can tell it from Gold only by weight, the Aluminum Gold being one-fourth lighter. The works are all made by machinery, the same as the well-known American Watch. We pack the Watch safely in a small box and send it by mail to any part of the United States on receipt of \$3.50; fifty cents for packing any postage. A key is sent free with each Watch. Money should be sent by Post-Office Money order or in a Registered Letter. Address all orders and communications to

J. F. WILLIAMS & CO., Jewelers,

"THE FARMERS' FAVORITE"

GRAIN DRILL,

Awarded 40 First Premiums, besides Diplomas, Special Recommends, Silver Medals, &c., at Fall Fairs of 1869.

BICKFORD & HUFFMAN, Patentees and Proprietors.

—:X:—
The Only Perfect Grain Drill in the World.

Certain in Distribution, accurate in Measurement of Seed used, and possessing more facilities and conveniences for adjustment to quantity and practical operations in the field than any or all other Drills manufactured.

—:X:—
THE ONLY GRAIN DRILL

Having a double set of Distributors, which, without adding any weight, gives the farmer **TWO DRILLS IN ONE**. One seeding Wheat, Rye, or Buckwheat in large or small quantities. The other seeding Oats, Barley, Corn, Peas, and other coarse grain with equal accuracy without clogging, skipping or breakage of seed.

THE ONLY DRILL which throws out of gear by the automatic action of the Tube Lifter and covers all the seed distributed. Has the only really

Practical, Durable Spring Tube in the Market.

Metal or Rubber Grain Funnels, as desired. Double Reversible Steel Points, on Tubes. Broad Faced Wheels, Wrought Iron Axles.

 Warranted to give entire satisfaction. It has the best Fertilizing Attachment in use.

Acknowledging, in the decline of prices of farm produce and the closeness of Financial matters among our patrons, the justice of their claim for a corresponding reduction in the price of farm implements, we have determined to reduce the price of Grain Drills to the old standard of 1860.

Confident a discriminating public will appreciate our effort, and avail themselves of this "golden opportunity" to secure one of these most useful labor saving implements at old prices, while labor still ranges at the war standard, we have established the following prices for drills, delivered on board boat or cars at Baltimore:

8 Tube Plain Grain Drill	\$85 00
With Guano Attachment	115 00
9 Tube Plain Grain Drill	90 00
With Guano Attachment	120 00
Gum Spring Tubes to either style of Drill	10 00
Grass Seeder to either style of Drill	10 00

W. L. BUCKINGHAM, General Agent,

BONE DUST.

The subscriber has just erected at his farm, near the city, the most improved machinery for making

BONE DUST,

And is now ready to fill orders for any quantity, which will be delivered at the shortest notice. The Bone Dust will be finer than any heretofore made by him, (no chemical process resorted to,) enabling the farmer or planter to sow it with the Drill.

Mr. SAMUEL SANDS,

Well known to the farmers and planters of the United States as the former editor of the *American Farmer and Rural Register*, will have charge of his office, No. 63 S. GAY STREET, near Pratt, and will be happy to receive the visits or orders of his old friends.

\$45 PER TON, put in new bags. No charge for bags. Farmers and others are invited to visit my works. I have nothing to conceal. My men have nothing nice to perform, therefore I have no "non admittance" signs on my premises. Persons are free to examine my factory, and the *modus operandi* of Dust-making.

I cannot afford to pay 5, 10 or 20 per cent. to commission merchants, as my profits do not exceed 10 per cent. Bone Dust, as manufactured by me, is *A simple*, and its quality cannot be made to conform to the price.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machines:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibbs, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have worked now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outward on the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic

stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength and because, although it can be taken out, it don't rip, not, even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from parts of the world, stating all the same facts.

RUTH'S "CHALLENGE" SOLUBLE PHOSPHATE.

This Fertilizer is prepared in Baltimore from the very best materials, and designed especially to take the place of A No. 1 Peruvian Guano. It will be found as active as Guano and much more durable in its effects. It is made upon the principle that the measure of our prosperity is the prosperity of the farmer, and every one who uses it may confidently rely upon large crops, unless injured by providential acts. It is, indeed, the "CHALLENGE" Fertilizer of the times, and that it may always remain such we have engaged in this manufacture the very best chemical skill in this country.

Price in Baltimore, \$60 per Ton, of 2000 pounds.

For sale by responsible dealers everywhere.

Every description of Book and Job Printing neatly executed at this office.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machines:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic

stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength and because, although it can be taken out, it don't rip, not, even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from parts of the world, stating all the same facts.

SOLE MANUFACTURERS OF

THE ANDREW COE
SUPER-PHOSPHATE OF LIME.

THE BEST FERTILIZER KNOWN!

We beg leave to call the attention of the Farmers and Planters of the South to the fact that *we are now manufacturing* the Andrew Coe Phosphate, which we can confidently recommend as being equal in valuable properties to *any fertilizer known*.

We were induced to enter into its manufacture from a *thorough knowledge of its superiority*, and at the same time felt that, having been prominently before the farmers and planters of the Southern States for nearly thirty years, and having built up a large trade with them, they would have confidence in our not putting our name upon any but a first-class article, and that its standard would be fully kept up.

Many farmers feel very timid about paying out their money for any manufactured fertilizer, having at some time been the dupe of some unscrupulous manufacturer who has made a good article for the first year or two, and then, after having built up a good trade, sent out an adulterated article, at an enormous profit to himself, but of no value whatever to the farmer.

That the Andrew Coe Phosphate is a valuable fertilizer, is a fact easily proved to any one who will read a few of the certificates, of which we have hundreds, from some of the most intelligent and successful farmers of this and adjacent States, and we pledge ourselves that its standard will be maintained, and that no adulterative material whatever shall enter into its composition.

Recognizing the importance of lending our name to none except a first class Fertilizer, and realizing the damaging effect it would have upon our other business were we to supply our customers with an inferior article, we assure them that no effort will be spared to make our Fertilizer equal to any commercial manure in the country.

Its Effects on the First Crop are equal to that of the Best Peruvian Guano.

It is a Permanent Improver of the Soil.

The Standard is Always Uniform.

It is in the End the Cheapest Fertilizer in the Market, as its Standard is Higher than most any other Commercial Manures.

J. WILKINSON,
LANDSCAPE GARDENER,
RURAL ARCHITECT,
AND
DRAINING AND IRRIGATING ENGINEER,
OF BALTIMORE, MD.

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits. It is his purpose to continue to make Baltimore his headquarters, but he will promptly respond to calls from all parts of the country.

He will visit and prospect places to be improved, and will furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications will be furnished, which will make the plans intelligible to the inexperienced in the art of landscaping.

He will furnish plans and specifications for Farm Barns, and all other Farm Buildings, Carriage Houses and Stables, for both city and country, Gate Lodges, with his Magic Gate arrangement, Dairies, Ice Houses, with Dairies and Refrigerators attached, Summer Houses, Graperies, both heated and cold, Bridges, Bath Houses of ever description, &c.

He will give counsel in every branch of Agriculture, in which he has had a long and practical experience having been for eight years the proprietor and principal of an Agricultural School and Experimental Farm.

He would invite special attention to his plans of Farm Buildings, for which he received the highest prize ever awarded in this country; also, to his original modes of constructing underdrains and sewers, and of irrigation. He will furnish plans for heating buildings of any form or dimensions, and will ventilate any cellar, vault or apartment, modifying the ventilation to all circumstances, conditions and purposes, in all of which he guarantees satisfaction. WHEAT SEEDING

Their popular, valuable and well established

 **GENUINE** 

Phospho-Peruvian Guano.

A A .

A Compound of choice Peruvian Guano and Bone Phosphate of Lime with Potash, Soda, &c., beautifully prepared for the Drill or Broadcast.

6 to 8 per cent. Ammonia, 40 to 50 per cent. Bone Phosphate.

As unsurpassed in the production of crop, and equal to BONE DUST in the permanent improvement, and quick as Peruvian Guano in action, bringing up poor lands to a high state of fertility by the increased growth of grasses and vegetation. Such is the unquestionable testimony of the best planters of Maryland and Virginia. Used for many years with great success, and increasing in favor daily, it is unnecessary for us to say more than refer to all consumers, with an earnest request that WHEAT GROWERS will make a trial.

—:O:—
We also especially recommend our

SOLUBLE

Ammoniated Super-Phosphate of Lime

—:O:—
A Very valuable manure, composed of Bone Phosphate dissolved with a large body of Sulphuric Acid—Ammoniated with Peruvian and Fish Guanoes, Potash, &c.

 **WARRANTED VERY SUPERIOR.** 

This Super-Phosphate we believe cannot be excelled. Our patrons give it unqualified approval.— On heavy soils it is more especially adapted than the Guano. On Wheat it has been entirely satisfactory. Beautifully prepared. We beg the patronage of the Wheat growers of Maryland and Virginia and other States. Our manures are reduced in price since the 1st inst., as follows:

Genuine Phospho-Peruvian Guano, \$65 per Ton of 2,000 Lbs.

Ammoniated Super-Phosphate of Lime, \$55 “ “

'THE FARMERS' FAVORITE'

GRAIN DRILL,

warded 40 First Premiums, besides Diplomas, Special Recommends, Silver Medals, &c., at Fall Fairs of 1869.

BICKFORD & HUFFMAN, Patentees and Proprietors.

The Only Perfect Grain Drill in the World.

ertain in Distribution, accurate in Measurement of Seed used, and possessing more facilities and conveniences for adjustment to quantity and practical operations in the field than any or all other Drills manufactured.

THE ONLY GRAIN DRILL

aving a double set of Distributors, which, without adding any weight, gives the farmer TWO DRILLS IN ONE. One seeding Wheat, Rye, or Buckwheat in large or small quantities. The other seeding Oats, barley, Corn, Peas, and other coarse grain with equal accuracy without clogging, skipping or breakage of seed.

THE ONLY DRILL which throws out of gear by the automatic action of the Tube Lifter and covers all the seed distributed. Has the only really

Practical, Durable Spring Tube in the Market.

Metal or Rubber Grain Funnels, as desired. Double Reversible Steel Points, on Tubes. Broad Faced Wheels, Wrought Iron Axles.

Warranted to give entire satisfaction. It has the best Fertilizing Attachment in use.

Acknowledging, in the decline of prices of farm produce and the closeness of Financial matters among our patrons, the justice of their claim for a corresponding reduction in the price of farm implements, we have determined to reduce the price of Grain Drills to the old standard of 1860.

Confident a discriminating public will appreciate our effort, and avail themselves of this "golden opportunity" to secure one of these most useful labor saving implements at old prices, while labor still ranges at the war standard, we have established the following prices for drills, delivered on board boat or cars at Baltimore:

8 Tube Plain Grain Drill	\$85 00
With Guano Attachment	115 00
9 Tube Plain Grain Drill.....	90 00
With Guano Attachment.....	120 00
Gum Spring Tubes to either style of Drill.....	10 00
Grass Seeder to either style of Drill.....	10 00

Book and Job Printing of every description executed at this office.

TO WHEAT GROWERS!

“EXCELSIOR.”

We again call the attention of the farmers of Maryland and Virginia to our EXCELSIOR, composed of 700 pounds of No. 1 Peruvian Guano, and 100 pounds of Soluble Phosphate of Lime (bones dissolved in sulphuric acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all stimulating properties of Peruvian Guano, and the most durable fertilizing properties of Ground Bones.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of the most close calculating Farmers, after TWELVE years experience in testing it side by side with other popular fertilizers that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore only 100 to 200 per cent. cheaper.

The very best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer is the

fact of its being imitated and counterfeited in this and other cities.

Every Bag branded as follows:

Trade Mark Patented.

Farmers should see that the ANALYSIS and name of J. J. TURNER & CO. are branded on every bag in RED LETTERS. All others are counterfeits.

PRICE \$65 PER TON.

RUTH'S "CHALLENGE" SOLUBLE PHOSPHATE.

This Fertilizer is prepared in Baltimore from the very best materials, and designed especially to take the place of A No. 1 Peruvian Guano. It will be found as active as Guano and much more durable in its effects. It is made upon the principle that the measure of our prosperity is the prosperity of the farmer, and every one who uses it may confidently rely upon large crops, unless injured by providential acts. It is, indeed, the "CHALLENGE" Fertilizer of the times, and that it may always remain such we have engaged in its manufacture the very best chemical skill in this country.

Price in Baltimore, \$60 per Ton, of 2000 pounds.

For sale by responsible dealers everywhere.

For further particulars address

R. J. RUTH & CO., Proprietors,
79 SOUTH STREET, BALTIMORE, Md.

IMPORTANT

TO

PLANTERS & FARMERS

A HIGH GRADE FERTILIZER at a MODERATE COST.

MAGNUM BONUM SOLUBLE PHOSPHATE,

Composed of Dissolved Bones, Ammonia and Potash.

The above is a rich and active Fertilizer, and combines all the valuable qualities contained in the strongest and most powerful manures. It is not introduced as a *new* Article, because, under other names, the valuable elements it contains, in like proportions, have been tried upon all crops, and with the most unqualified success.

In this Fertilizer is concentrated all the richness of pure bone, made Soluble by a generous application of Sulphuric Acid, aided by the proper proportions of Ammonia and Potash. The whole Combination presenting the following :

Analysis.	{	Bone Phosphate of Lime.....	52	per. ct.
		of which is Soluble.....	14	"
		Ammonia.....	4	"
		Potash.....	5	"

The Proprietors of this Manure are so well satisfied of its adaptability to all crops, and of its powerful influence in building up worn out lands, and of really adding to the value of the soil, that they request, as a matter of real importance to the farming interests, that every Farmer and Planter should give a trial, during the present season, to the "Magnum Bonum Soluble Phosphate "

Its wonderful effect upon the soil and crops is guaranteed by the presence in this Manure of those elements of Fertility which are above enumerated, and a satisfactory result must follow in every case where it is properly applied and proper tillage is bestowed, attended by favorable circumstances of climate and weather.

What kind of a Fertilizer does the Farmer need?

This is a Very Important question, and can be truthfully answered as follows:

1st.—He needs one that will be *sure*, with a fair season, to bring him large crops.

2d.—He needs one that will cover his farm with a heavy sward of luxuriant grass.

3d.—He needs one that will effectually prevent the ravages of all kinds of insects upon his crops.

4th.—He needs one that will make poor land rich.

5th.—He needs one whose effects will not be exhausted by one crop, but will make the land permanently better.

All practical farmers will at once admit that the above are precisely the effects which should be produced by a good Fertilizer and the next question is

What Article will accomplish these ends?

We Reply,

The Magnum Bonum Soluble Phosphate,

And are prepared to give good reasons for this assertion, as follows:

1st.—Because it is made from the true source of Plant Food, viz:—Bone.

2d.—Because the Phosphate of Lime in the Bones is rendered soluble by means of Sulphuric Acid, thus setting free all the plant nourishing qualities contained therein.

3d.—Because an ample quantity of Ammonia is added, which is derived from the best source, viz: Animal Matter, and will stimulate the crop and produce a luxuriant growth.

4th.—Because there is an addition of Potash—the element which forms a part of all plants and which being taken from the soil by each crop; must be restored again, if a healthy and vigorous growth is desired.

5th.—Because this Fertilizer is *honestly* made, and the Proprietors have staked their business reputation upon it, and are determined that it shall be kept up to the high standard which has been adopted, and *deserve* the high reputation which they feel *sure* it will gain.

All that is asked, is that every planter who reads these pages will give the "*Magnum Bonum*" a fair trial, upon however small a scale.

We are content to leave its reputation to the tribunal of practical intelligent Farmers, who will give it a trial, and judge it, *not* by what we say, but by their own experience.

The Magnum Bonum Soluble Phosphate

Is prepared in good condition for drilling, and is packed in good strong bags containing 167 pounds each.

55 SOUTH STREET,

BALTIMORE, Md.

DIRECTIONS FOR USE.

FOR TOBACCO.—The Phosphate should be applied in the hill, care being taken to have it thoroughly incorporated with the soil. The quantity generally recommended is a handfull to each hill, which is equivalent to about 400 pounds to the acre. Tobacco is a rank feeder, and, in order to secure fine plants, should have a vigorous start. If the soil, therefore, is naturally or otherwise poor or thin, a liberal dressing of Phosphate should be given it, broadcast, before the rows are laid off.

FOR CORN.—When sown broadcast, use 350 lbs. to the acre. If applied in the hill, use one handfull to two or three hills, mixing it with the soil, or scattering somewhat. This precaution is necessary, as the Phosphate placed in immediate contact with the grain would injure the germ.

FOR OATS.—200 pounds per acre, broadcast, will produce a large crop if the land be good, if poor increase the quantity.

FOR POTATOES.—Apply 250 or 350 pounds per acre in the row, covering it with a little earth, or broadcast 400 lbs. to the acre.

FOR GRASS.—Apply the Phosphate any time during the Spring or Fall 300 lbs per acre broadcast; although a very good plan is to sow in the Spring just after the frost is out of the ground.

IMPORTANT TO MERCHANTS, FARMERS, AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers, and Planters, in ordering their supplies of our Dr. McLANE'S CELEBRATED VERMIFUGE, has been to simply write or order Vermifuge. The consequence is, that, instead of the genuine Dr. McLANE'S VERMIFUGE, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLANE'S CELEBRATED VERMIFUGE, prepared by Fleming Brothers, Pittsburg, Pa.

We would also advise the same precaution in ordering Dr. McLANE'S CELEBRATED LIVER

PILLS. The great popularity of these Pills as a specific or cure for Liver Complaint, and all the billious derangements so prevalent in the South and Southwest, has induced the vendors of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! Dr. McLANE'S CELEBRATED LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge nor Liver Pills unless you are sure you are getting the genuine Dr. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburg, Pa.

:O:

DR. McLANE'S AMERICAN WORM SPECIFIC, OR VERMIFUGE.

No diseases to which the human body is liable are better entitled to the attention of the philanthropist than those consequent on the irritation produced by WORMS in the Stomach and Bowels. When the sufferer is an adult the cause is frequently overlooked, and consequently the proper remedy is not applied. But when the patient is an infant, if the disease is not entirely neglected, it is still too frequently ascribed, in whole or in part, to some other cause. It ought here to be particularly remarked that although but few worms may exist in a child, and howsoever quiescent they may have been previously, no sooner is the constitution invaded by any of the numerous train of diseases to which infancy is exposed than it is fearfully augmented by their irritation. Hence it too frequently happens that a disease, otherwise easily managed by proper remedies, when aggravated by that cause, bids defiance to treatment, judicious in other respects, but which entirely fails in consequence of the presence of worms being overlooked. And even in cases of great violence, if a potent and prompt remedy be possessed, so that they could be expelled without loss of time, which is so precious in such cases, the disease might be attacked, by proper remedies, even-handed and with success.

Symptoms of the Presence of Worms which Cannot be Mistaken.

The countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilated; an azure semi-circle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva, slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult and accompanied by hiccup; cough sometimes dry and convulsive; uneasy and disturbed sleep,

with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist, Dr. McLANE'S CELEBRATED VERMIFUGE may be depended upon to effect a cure.

The universal success which has attended the administration of Dr. McLANE'S VERMIFUGE has been such as to warrant us in pledging ourselves to RETURN THE MONEY in every instance where it proves ineffectual, "providing the symptoms attending the sickness of the child or adult warrant the supposition of worms being the cause." In all cases the medicine to be given in strict accordance with the directions.

We pledge ourselves to the public that Dr. McLANE'S VERMIFUGE does not contain MERCURY in any form; and that it is an innocent preparation, and not capable of doing the slightest injury to the most tender infant.

Directions.

Give a child, from two to ten years old, a teaspoonfull in as much sweetened water every morning, fasting; if it purges through the day, well; but if not, repeat it again in the evening. Over ten, give a little more; under two, give less. To a full-grown person give two teaspoonfulls.

Beware of Counterfeits, and all Articles Purporting to be Dr. McLANE'S.

The great popularity of Dr. McLANE'S GENUINE PREPARATIONS has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles; in consequence of which the proprietors have been forced to adopt every possible guard against fraud. Purchasers will please pay attention to the following marks of genuineness: 1st. The External Wrapper is a fine Steel Engraving, with the signature of C. McLANE and FLEMING BROS. 2d. The Directions are printed on Fine Paper, with a Water-Mark, as follows: "Dr. C. McLANE'S CELEBRATED VERMIFUGE AND LIVER PILLS, FLEMING BROS., PROPRIETORS." This Water-Mark can be seen by holding up the paper to the light.

The Liver Pills have the name stamped on the lid of the box, in red wax.

near Charlottesville, Va,

HAY GROWERS AWAKE TO YOUR INTEREST!

I am prepared to furnish the farmers of Pennsylvania, Maryland, Delaware and Virginia, with the best and cheapest HORSE POWER HAY AND STRAW PITCHING APPARATUS *known in the country.*

It is equally adapted to pitching hay on the stack, into barrack and in the barn. It will pitch any quantity of hay or straw, fine or coarse, equally well. A ton of ordinary hay may be unloaded and lodged in the highest mow in a barn, in from three to five minutes, by the use of a boy and one horse.

Do not delay in sending in your orders until too late to avail yourselves of its advantages for the growing crops. Address

LAND FOR SALE

I offer for sale 515 ACRES OF LAND IN KING AND QUEEN CO., beautifully and advantageously located for shipping either by steamboat or vessel, lying on the bank of the Mattaponi River, 20 miles above West Point—the head of York River. The land was greatly improved before the war with marl, lime, clover, peas, &c., and is at present in very good condition. It has on it a large DWELLING House, a barn 40 by 45 feet, with all other necessary buildings, an abundance of wood land, good water, excellent fruit, 17 varieties of pears, a good fishery, lies mostly level, is easily cultivated, with a good soil, a large portion of it well adapted to grass. There is an admirable location for a mill on it, with an abundant supply of water. This farm is regarded by all who know it as one of the most desirable and profitable in the country.

J. WILKINSON,
LANDSCAPE GARDENER,
RURAL ARCHITECT,
AND
DRAINING AND IRRIGATING ENGINEER,
OF BALTIMORE, MD.

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits.

It is his purpose to continue to make Baltimore his headquarters, but he will promptly respond to calls from all parts of the country.

He will visit and prospect places to be improved, and will furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications will be furnished, which will make the plans intelligible to the inexperienced in the art of landscaping.

He will furnish plans and specifications for Farm Barns, and all other Farm Buildings, Carriage Houses and Stables, for both city and country. Gate Lodges, with his Magic Gate arrangement, Dairies, Ice Houses, with Dairies and Refrigerators attached, Summer Houses, Graperies, both heated and cold, Bridges, Bath Houses of ever description, &c.

He will give counsel in every branch of Agriculture, in which he has had a long and practical experience having been for eight years the proprietor and principal of an Agricultural School and Experimental Farm.

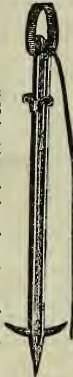

He would invite special attention to his plans of Farm Buildings, for which he received the highest prize ever awarded in this country; also, to his original modes of constructing underdrains and sewers, and of irrigation. He will furnish plans for heating buildings of any form or dimensions, and will ventilate any cellar, vault or apartment, modifying the ventilation to all circumstances, conditions and purposes, in all of which he guarantees satisfaction. References given if desired. Address

WHAT EVERY FARMER WANTS.

ROGER'S ORIGINAL HARPOON
Horse Hay Fork,
IMPROVED.

Greatest Record in the History of
Agricultural Implements.

Thirteen (13) First Premiums during the Fall of 1869, at NINE different State Fairs, were awarded our unloading apparatus. NINE upon Roger's Original Harpoon Horse Hay Fork, Improved, and FOUR upon Nellis' Stacker, in addition, by Executive Committees, Medals, Diplomas and Honorable Mentions. Successful at every Trial and Exhibition by actual test in competition with the leading articles of their class, which must be conclusive that our goods possess more than ordinary merit to command honors of this nature. These facts, together with the endorsements of the most scientific Farmers and Hay Dealers of the Country; also practical illustrations for depositing hay in mow or on stack, are fully set forth in

our PAMPHLETS, furnished free upon application to

PURE WATER A GREAT BLESSING.
TIN-LINED LEAD PIPE.

This article is growing rapidly in public favor everywhere, and is fast superseding the use of lead pipes for all domestic purposes. It is also getting into extensive use through the country for conveying water from springs, even from the greatest distances. The use of lead pipes is well known to be dangerous, and many are afflicted with painful complaints which physicians attribute solely to this cause. Our pipe is lined with Pure Block Tin to the extent of one-quarter its whole thickness, but is so thoroughly united to the LEAD in the process of manufacture as to be in fact one pipe. Water flows through this pipe as pure as if drawn through silver. By its use Lead Poison is avoided and general health promoted. This pipe is as flexible and as easily worked as a lead pipe; is stronger also and more durable, and costs about the same per foot. We furnish it in single pieces of great length, when required. In ordering or making inquiries for price, send bore of pipe required and head or pressure of water. Circulars and sample of pipe sent by mail free of charge.

Clipper Mower at Work in the Field.

Whann's Raw Bone Super-Phosphate.

Price \$56 Per Ton. The Best Super-Phosphate Made.

The picture above represents the CLIPPER MOWER, which is now considered to combine more good and practical points than any other Mower made in the United States in 1870. The Machine will be fully explained and shown to Farmers, by calling on the undersigned. I take pleasure in referring the Farmers of Maryland to the following gentlemen who have bought and used the Clipper Mower in the past four years:

Governor Oden Bowie, Collington, Prince George's county, Md., now Governor of Maryland, and at Annapolis, Md.
 Stephen Boyer, Esq., Millington, Kent county, Md., one of the most practical Farmers in Kent county, Md.
 Henry Cragg, Esq., Elkridge Landing, Howard county, Maryland.
 Lewis Ross, Esq., Cambridge, Dorchester county, Maryland.
 E. A. Merceron, Esq., Reisterstown, Baltimore county, Maryland.
 George Kephart, Esq., Reisterstown, Baltimore county, Maryland.
 R. I. Worthington, Esq., Reisterstown, Baltimore county, Maryland.
 J. S. Forney, Reisterstown, Baltimore county, Maryland.
 A. F. Fausett, Esq., near Herring Run, Baltimore county, Maryland, former owner of the celebrated Trotting Horse Dexter, and now owner of the celebrated Trotting Stallion BASHAW.
 A. H. Hull, Esq., Belair, Harford county, Maryland.
 John W. Webster, U. S. Revenue Assessor, 2d District, Maryland. Residence, Belair, Harford county, Maryland.
 Joseph McCormick, Custom House, Baltimore. Residence, Belair, Harford county, Maryland.

Governor Bowie in a letter, says "that he had two Mowers in good order, but, after trying the Clipper, did not hitch them up, so well pleased was he with the work of the Clipper. He cut in 1868, 125 acres, and when harvest was over, could not discover any wear of the knife bar, bearings, or gear." Mr. Boyer says, the Clipper can't be equaled; that he had tried what had been considered the best Mower; but, that the Clipper far excelled it or any Mower he had ever seen used, and he believed he had seen all that were at all good. Geo. Kephart, Esq., and R. I. Worthington both say the Clipper cannot be equaled. In fact, every gentleman that is named above, speaks in the best terms of the UNDOUBTED SUPERIORITY of the Clipper over all other Mowers. Send for book—and call and see the Machine before you buy. Cash price in Baltimore—No. 1, cuts 3½ feet, one horse, \$115; No. 2, cuts 4 feet, two horses, \$125; No. 3, cuts 4½ feet, \$135; No. 4, cuts 4½ feet, \$145. No. 2 has 30 inch driving wheels, and No. 4 has 36 inch driving wheels. These two sizes are mostly in demand. [I can furnish the No. 4 size as a combined Machine, with Dropper, Hand Rake, or Self Rake. Price \$185 to \$230.] Call and see the Clipper before you buy—and try "WHANN'S RAW BONE SUPER PHOSPHATE," \$56 per ton, in preference to all other phosphates.

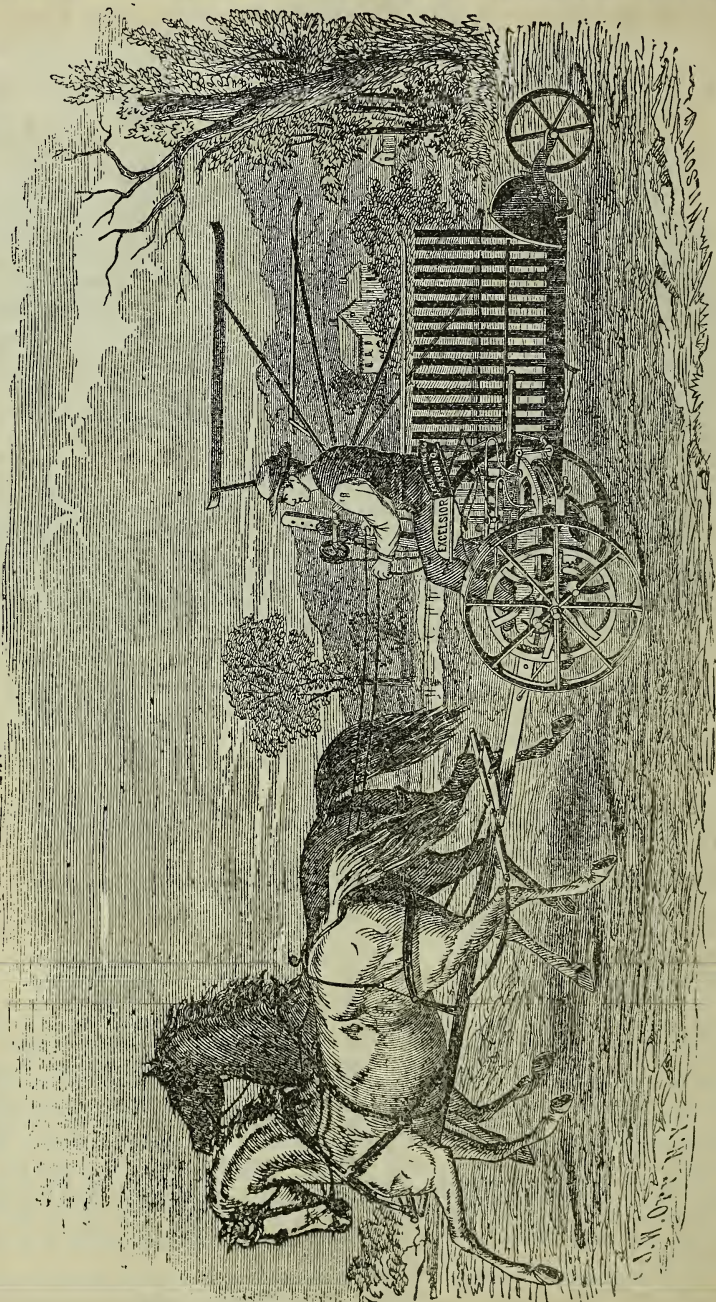

All communications and orders, to receive prompt attention, should be addressed to

E. G. EDWARDS, No. 57 S. Calvert Street, Baltimore, Md.,

Agent for Clipper Mowers and Reapers, and WHANN'S RAW BONE SUPER PHOSPHATE. The two best things of their kind out.

E. WHITMAN & SONS' HARVEST TOOLS 1870.

E. WHITMAN & SONS,
145 W. PRATT ST., BALTIMORE, MD.
AGENTS FOR THE
"Excelsior" Self-Raking or Dropping Reaper & Mower.

MANUFACTURED BY THE
J. F. SEIBERLING COMPANY.

E. Whitman & Sons' Harvest Tools 1870.

BUY THE BEST!

Having been engaged in the sale of Reaping Machines ever since their invention, we have sold nearly every kind which has ever attained any prominence, and after an experience of three seasons with the "EXCELSIOR," believe it to be the best Machine for general use in the market. "SEIBERLING'S DROPPER" attachment is about as great an improvement over the Platform and Self-Raking Machines, as they were over the common scythe and sneath. With the "Dropper Attachment," the Reaper is but a trifle heavier than a Mower, and it will do more and better work than the best Self-Raking or Hand-Raking Machine, and with the advantage of dispensing with in either instance the additional weight of the rake or raker, and in the first instance, the great danger of getting out of order or breaking down in the midst of harvest.

The great advantage of the "EXCELSIOR" over other machines can be summed up as follows, viz:

It is very simple and easily managed.

It has no side draft, or weight on the horses necks.

It is a very light draft machine.

It is very strong and durable, and less liable to get out of order than any machine in the market.

It works equally well either as a Reaper or Mower.

PREMIUMS.

The Excelsior has been before the public eight years, and in that time has come in competition with every machine manufactured in the country, and has taken the first premium over them all, and may well be called the "Excelsior," as it has excelled all others. At the Maryland State Fair, 1869, the field was covered with Combined Reapers and Mowers, which included *all sold in this market*, but the Excelsior again took the first premium of \$15 as

THE BEST COMBINED REAPER AND MOWER,

and it has altogether received about 500 Premiums over all other Machines.

PRICES IN BALTIMORE:

Large Combined Machine	\$195	Large Mower.....	\$150
Junior " "	175	Junior "	130

We would advise all who may desire to procure one of these most excellent machines to make early application, as the demand has been largely in excess of the supply for several past seasons.

WHEEL RAKES.

Having thoroughly examined the market, and spared no pains in trying to find the best, we are prepared to offer to our customers great inducements in WHEEL RAKES. To agents who have sold Rakes for us heretofore, we would say that we can supply them with a better article, and at a less price, than we have ever done before.

The two kinds which we mention below are both well made and highly finished, and the axles being made of wrought iron, and the teeth of the very best quality steel, they are unusually strong and durable.

The Eagle Self-Discharging Rake.

Can be worked by hand or as a self-discharger, as the driver may wish. In either case it can be worked by a small boy, being perfectly simple and easily managed. Price \$42.00.

THE EXCELSIOR WHEEL RAKE.

Is a strong, simple and durable article, and cannot fail to give satisfaction. It has both a foot treadle and a hand lever, and is very easily discharged. It possesses more good points than any Rake (not a self-discharger) that we have ever seen. Price \$40.

~~As~~ Neither of the above Rakes have their superior.

THE TIFFIN REVOLVING HORSE RAKE.

A sixteen tooth Rake, nine foot head, square hickory tooth, frame and head of the best white ash, patent adjustable iron braced knees, and patent tripping arrangement, head and frames varnished and teeth oiled. Price \$12.

Stevenson's Harvester Cutter Sharpener.

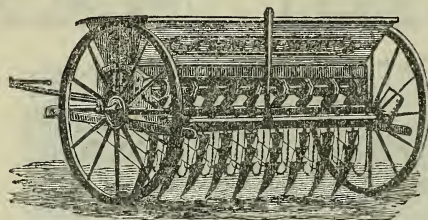

This machine should be in the possession of every farmer who has a Reaper or Mower. It holds the knife firmly to the stone and the bevel is sustained alike on every section, so that the knives on the entire cutter bar are uniformly and readily ground.

When not in use as a grinder for section knives, the apparatus holding the cutter bar can be removed, and the stone used for the ordinary purposes of a grinder. Price \$12.

GRAIN DRILLS.

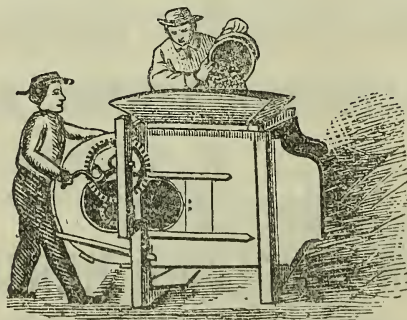

The Drill has become so important an implement to farmers that but little need be said of it. We have sold them for more than twenty years, and each year the sales have regularly increased, until now the manufacture of Drills are counted each year by thousands.

Drill, with Guano Attachment, 7 tubes.....	\$120
“ “ “ 8 tubes.....	125
“ “ “ 9 tubes.....	130
Grain Seeder to either of the above.....	10

Montgomery's Rockaway Wheat Fan.

We are the sole manufacturers of these justly celebrated Fans, which have proved themselves by many trials to be superior to any other yet invented. They have in late contests obtained premiums over several Fans claiming to be improvements over the Rockaway, and now stand unequalled by any other in the country.

Any person who has ever used one will give as good a recommendation as we could wish.
